SAFETY INSTRUCTIONS

READ CAREFULLY BEFORE ASSEMBLY AND OPERATION OF YOUR GRILL

PROTECT CHILDREN:

- Do not allow children to operate the grill.
- Keep children away from the grill during use and until the grill has cooled after you are finished.

NEVER SMOKE DURING USE

SAFETY:

- 1) When using charcoal briquettes or wood chunks, form a pyramid and douse with lighter fluid. Wait until fluid has soaked in before lighting.
- 2) Cap lighter fluid immediately and place at a safe distance from grill.
- 3) **Never** add lighter fluid to coals that are already hot or warm.
- 4) **Never** use gasoline, kerosene or other highly volatile fluids as a starter. They can explode.
- 5) As an alternative to lighter fluid, use an electric, solid or metal chimney or other starter specifically made for lighting charcoal briquettes or wood chunks.
- 6) Unplug and remove a hot starter with caution and be careful where you place it. Always make sure the starter is completely cool before storing.
- 7) **Never** use an electric starter in the rain and/or when standing on wet ground.
- 8) When using instant light briquettes, do not use lighter fluid, electric, solid, or metal chimney-style starters. Do not add more instant light briquettes once the fire has been lit. Add only regular charcoal briquettes if more are needed.
- 9) Once the grill is lit, do not touch briquettes or wood chunks to see if they are hot. Keep grill uncovered until ready to cook.
- 10) Keep vents open while cooking. Charcoal briquettes and wood chunks need oxygen to burn.
- 11) Allow coals to burn out completely and let ashes cool at least 48 hours before disposing.
- 12) Dispose of cold ashes by wrapping them in heavy-duty aluminum foil and placing them in a non-combustible container. Be sure no other combustible materials are nearby.
- 13) If you must dispose of ashes before the grill is completely cool, place them in heavy-duty foil and soak with water completely before disposing in a non-combustible container.

SAFETY INSTRUCTIONS (CONTINUED)

READ CAREFULLY BEFORE ASSEMBLY AND OPERATION OF YOUR GRILL

- 14) **WARNING:** This grill is designed for outdoor use only. If used indoors, toxic fumes will accumulate and cause serious bodily injury or death.
- 15) **Do not** leave infants, children, or pets unattended near a hot grill.
- 16) **Do not** use your grill near any combustible materials and/or chemicals. Combustible materials include, but are not limited to, wood or treated wood decks, patios, or porches.
- 17) Always keep the grill in a level position.
- 18) Always put charcoal on top of the charcoal grate and not directly into the bottom of the bowl.
- 19) Never touch the cooking or charcoal grate or the grill to see if they are hot.
- 20) Use barbecue mitts or hot pads to protect hands while cooking or adjusting the vents.
- 21) Use proper barbecuing tools with long, heat-resistant handles. Lining the bowl with aluminum foil will obstruct the air flow. Instead, use a drip pan to catch drippings from meat when cooking by the indirect method.
