Quick Start Guide

MULTICOLOR LED LIGHT

v3.0 02-19

PACKAGE INCLUDES

- 1 – 6.5ft Multicolor LED Light with attached controller and pre-installed mounting adhesive
- 1 – Quick Start Guide
- 1 – Set of Mounting Bracket Clips and Screws (optional install method)

Before mounting your LED Light, make sure it is paired and set up in app first.

SETUP

1. Download the Monster Smart app or the Smart Life app from the App Store (for iPhone) or Google Play Store (for Android phones).

Note: Monster Smart devices only work on a 2.4GHz Wi-Fi network.

2. Open the app and create an account by following the on-screen instructions.

3. Plug the LED Light and the attached controller into a USB power source (not included). The LED Light should start blinking rapidly.

EZ MODE	Rapidly blinking LED	EZ Mode (default) for quick and easy pairing setup.
AP MODE	Slowly blinking LED	Access Point Mode (secondary setup, requires multiple steps for pairing) follow the on-screen step by step instructions.

NOTE: Press and hold the controller button for 5 seconds to change between setup modes.

4. In the app, select "Add Device" and then "Lighting Devices". Follow the on-screen instructions to set up your device.

NOTE: make sure your phone is connected to the Wi-Fi network that your Multicolor LED Light will be placed on.

5. Confirm that the LED Light is still rapidly blinking, confirm that the network Wi-Fi displayed is your 2.4GHz Wi-Fi network, enter your Wi-Fi password and click confirm.

6. Your smart Multicolor LED Light will now be connected to the network. Confirm the settings for your device and then click finish device setup.

INSTALLATION

1. Determine where you will install the Multicolor LED Light. (make sure the location is close enough to a power source.)

OR

Install rubber brackets over light

2. Peel beginning of adhesive backing off and firmly stick LED Light onto surface.

3. Peel off more of the adhesive backing as you mount the LED Light.

NOTE: For best mounting results, place adhesive onto desired surface with ONE attempt. Reapplying multiple times will not guarantee secure mounting onto surface.

Note: Please do not connect extra lights to this product.

USE

Control your light settings using the app.

Manually pressing the controller button will cycle the Light through a few colors, preset modes or turn off.

NOTE: If you need to reset your Multicolor LED Light or change the setup, simply hold down the controller button for 5-10 seconds to reconnect the device.

VOICE CONTROL SETUP

works with the Google Assistant

Works with your Google Assistant enabled devices for a hands-free experience.

1. Open the Google Home app and go to Home Control in the menu. Tap the "+" button to add a new device.

2. Select Monster Smart or Smart Life from the list of Home Control partners and authorize your account using your login information.

NOTE: Use the same login information that you used to setup your Multicolor LED Light on your home Wi-Fi network.

3. If desired, you can use the app to set a nickname or room for your device. Your device is now ready to use!

To control your Monster Multicolor LED Light, just say "OK Google" and ask:
"Turn on my light"
"Set my light to blue"
"Dim my light to 50%"
and more!

FCC Compliance
This device complies with Part 15 of the FCC. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

RF Exposure Statement
To satisfy FCC RF exposure requirements, a separation distance of 20 cm or more should be maintained between the antenna of this device and persons during device operation. To ensure compliance, operations at closer than this distance is not recommended.
