

Officially licensed  
by the U.S. Air  
Force

## Let's kick the tires and light the fires!

It's the return of the legendary **throttle quadrant system** from the **Viper**, the world's most widely-used modern multirole fighter aircraft — **officially licensed by the U.S. Air Force**.

- **Unmatched sensations** thanks to the design of the 1:1 scale replica Viper metal handle.
- **Experience absolute realism** with the IDLE/AFTERBURNER detents and the addition of iconic controls including the CHAFF/FLARE slap switch and Black-out switch.
- **Exclusive precision H.E.A.R.T HallEffect AccuRate Technology™!** 3D (Hall Effect) magnetic sensor on the axis.

## KEY FEATURES

### A metal handle for unrivalled realism!

- **Throttle** officially licensed by the **U.S. Air Force** and based on the legendary TQS of the Viper, following in the footsteps of Thrustmaster's iconic HOTAS COUGAR.
- **1:1 scale replica metal handle** for incredible realism and unique ergonomics thanks to metal buttons.
- Realistic controls, including the **iconic CHAFF/FLARE slap switch** to deploy **countermeasures in air combat!**
- **Surgical precision** (16-bit resolution, 65,635 values!) thanks to the H.E.A.R.T (HallEffect AccuRate Technology™) magnetic sensor.
- Enjoy **firm, linear travel** with no dead zones on the throttle thanks to the **adjustable friction**.
- **Full immersion thanks to ultra-realistic flight kinematics** with access to Idle/Cutoff and Afterburner detents, via mechanical levers and handle rotation.
- **21 action buttons** (including 2 virtual buttons), **5 axes**, and **disengageable detents**.

### Scalable throttle!

- Unleash the potential of Viper TQS (Throttle Quadrant System) by expanding its flight and combat capabilities with **Viper Panel\*** — a high-quality, backlit add-on module with 43 buttons (including 11 virtual buttons) and an additional axis.

### Native integration in Digital Combat Simulator (DCS)

- Plug and Play in DCS World, with no setup required: the device is automatically recognized in the game.

### Extensive compatibility

- Compatible with PC (Windows® 10, 11).
- Compatible with Viper Panel\*.
- Multiple installation options: desk-mounted, cockpit-mounted or using TM Flying Desk Mount\* and TM Flying Clamp\*.

### Compatible with T.A.R.G.E.T software for PC

- Thrustmaster Advanced pROgramming Graphical EdiTor software: load or create specific mapping profiles for each aircraft, to extend and save all of your favorite settings.

\*Sold separately

## LOGISTICS INFORMATION

Product name	Viper TQS
Product code	4060252
EMEA barcode	3362934003272
U.S. barcode	663296423733
Inner carton (width x depth x height)	—
Units/inner carton	—
Inner carton weight	—
Master carton (width x depth x height)	11.6 x 13.0 x 12.6" 295 x 330 x 320 mm
Units/master carton	1
Master carton weight	9.4 lb / 4,274 g
Double master carton (width x depth x height)	12.2 x 13.6 x 13.8" 310 x 345 x 350 mm
Double master carton weight	
Capacity/20' container (units)	931
Capacity/40' container (units)	1,959
Capacity/40' HQ container (units)	2,239
Product origin	Designed in Europe and North America / Made in China

## BOX CONTENTS

- 1 x Viper TQS throttle quadrant system
- 1 x Allen key
- 1 x USB-C cable
- Warranty information and instruction manual

## PRODUCT MEASUREMENTS

Dimensions	Width: 9.1 inches / 230 mm
	Depth: 9.1 inches / 230 mm
	Height: 10.2 inches / 260 mm
Weight	5.3 lb / 2,410 g

## MARKETING INFORMATION

Availability	August 23, 2023
Suggested retail price	\$349.99 / €329.99
