

PLAY TO LEARN. LEARN TO WIN.

Logitech G solutions for
education and esports

BORN TO WIN

It began in 1981 with a singular vision: Create memorable experiences in a digital world. From the forests of Lausanne, Switzerland all the way to Silicon Valley, Logitech has pioneered a legacy of industry firsts—from the first cordless mouse in 1984 to the thumb-trackball, laser mouse, and more.

From work to play and beyond, Logitech continues our legacy of industry firsts that has expanded into an entire family of brands.

OUR BRANDS

logitech®

LOGITECH G
IS FOR
THE PLAYERS

**The passionate explorers,
Pushing forward
Through challenges.
Defying expectations.
Driven by the spirit of play,
And the determination
To find what's next.**

CLASS IS IN SESSION

The right peripherals can make learning more accessible, fun, and engaging. And when combined with the rising popularity of esports in schools, the need for reliable and high-performance devices becomes an absolute essential in every classroom and computer lab.

MORE ENGAGING

Like traditional extracurricular activities, esports positions students for success, engaging them with their education.

MORE INCLUSIVE

Whether it's for class, clubs, or competition, esports welcomes players of every background, every age, and every identity.

MORE SKILLS

Gaming is a social experience that teaches invaluable life skills: Collaboration, strategic thinking, emotional intelligence, and creativity.

MORE LEARNING

Students in esports are far more likely to be interested in STEM subjects (science, technology, engineering, and math).

MORE OPPORTUNITY

The real win is exposing students to potential career paths like game design, marketing, management, and more.

BUILT WITHOUT LIMITS

The innovative and award-winning Logitech G portfolio is purpose-built for the world's most passionate players, wherever they learn, and however they play, from pitch-perfect headsets to lightning-fast keyboards and mice.

DURABLE

Whatever students can dish out, Logitech G devices can take it. Drop them. Bend them. Scratch them. Our portfolio is ready for every victory, every defeat, every time.

DESIGN

Play without reservations. These devices undergo countless hours of engineering, testing, and refinement before they reach the arena or lab.

CUSTOMIZABLE

Turn gaming into another form of self-expression with products that let students tailor their gear to their precise playing setups, preferred visual settings, or even match their team's color scheme.

BJERGSEN

"It helps me be as precise and confident as I need to be so we can win. I used to think wireless was too slow for gaming, but now I am on the world stage completely confident in the performance of my Logitech G LIGHTSPEED wireless mouse."

PRIMARY EDUCATION / K12

PREPARE FOR LAUNCH

Lay the groundwork for a potential lifetime of gaming memories by giving your players and teams what they need to train and win.

PRO TIPS

Schedule playing time after school when your students can focus and more Internet bandwidth is available.

Empower students by delegating decision-making to them. Let them research what they need for their preferred games and report back.

Ensure your gaming space is separate from other shared computer resources, making it easier to manage and monitor.

WIRED

G213 PRODIGY

Gaming-grade performance with Mech-Dome keys, spill-resistant and durable, and LIGHTSYNC RGB

● **Black**
920-008083

G203 LIGHTSYNC

LEVEL ONE

Keyboard
Wired: G213
Wireless: G613

No matter the game, no matter the skill level, you need a reliable keyboard to connect to all the action.

LEVEL TWO

Keyboard + Mouse
Wired: G213 + G203
Wireless: G613 + G305

Amp up their performance with the addition of an agile and responsive mouse that also matches their personality.

LEVEL THREE

Keyboard + Mouse + Headset
Wired: G213 + G203 + G335
Wireless: G613 + G305 + G435

Fully immerse your students in the game with a complete package of gear that leaves no detail to chance.

UNIVERSITY / COLLEGIATE

DEVELOP A DYNASTY

At the next level, student gamers need every advantage at their disposal to compete with more experienced players and higher stakes.

PRO TIPS

Specify whether you're running a varsity or a student-run organization. Each comes with its own challenges and facility needs.

Attracting players may take a little creativity—or a convincing offer. Try promoting your program with targeted marketing or recruiting top-tier talent with scholarships and other financial aid opportunities.

Brush up on eligibility rules. Much like the NCAA, organizations like the National Association of Collegiate Esports (NACE) and CSL Esports require specific guidelines for competition.

Wireless: G915 + G502 LIGHTSPEED + G733

See. React. Dominate. Make split-second reactions and stay in crystal-clear communication with teams and fans.

PRO

CREATE YOUR LEGEND

When you reach the top of the mountain, there's only room for the best. With Logitech G Pro X peripherals, teams have what they need to stay above the competition.

ALL GEARED UP

For Logitech G players Anne Munion and DrLupo, ordinary never makes the cut. That's why they prefer gear that gives them the upper hand in games and streaming.

DRLUPO

"I've used their stuff for forever. The products they put out are fantastic."

ANNE MUNITION

"I've been super impressed with their dedication to next-gen, quality, professional gaming equipment."
