

TaiMei Series

Shower Door Measurement Guide

Prior to installation, please determine the following measurements of your enclosure based on the diagram provided:

- **A: Horizontal Opening**
 - Measurement of the width of the opening at the top and the bottom of the enclosure
- **B: Vertical Opening**
 - Measurement of the height of the opening
- **C: Depth**
 - Measurement of the depth of the sill/threshold

Opening Requirements for Installation:

- Horizontal Opening: 56 in. recommended minimum ~60 in. maximum
- Total Product Height: 60 in
- Minimum Depth Required for Sill/Threshold: 2 in.

Measurement Recording Chart

Measurements	Measurements Values	Recommended
Horizontal Opening (A)		56 in ~ 60 in.
Total Product Height: (B)		Minimum 60 in
Depth (C)		Minimum 2 in.
