

BLUETOOTH® SOUND REACTIVE RGB LED CAR INTERIOR LIGHTS

4 Pack 10.5" Sound Reactive Multicolor LED Lights
With Bluetooth® App Control

Operation Manual

Model: MLB7-2021-RGB
V2.0 1121

Introduction

These car interior LED accent lights are the perfect addition to light up any automobile interior. Place them under the dash in the footwell of the driver and passengers seats for subtle illumination. They require no hard wiring, just simply peel, stick, and plug in into your cars DC adapter. Customize your color experience via app with 4 interior LED lighting strips.

Features

- Enhance your car interior with 4 - 10.5" customizable LED strips
- Control colors and flash modes with App
- Self adhesive backing for easy application
- Powered with included 12V car DC adapter

What's Included

- 4 - 10.5" RGB Color Changing LED Strips w/ DC Adapter
- Downloadable App
- User Manual

Installation

- 1 Clean the surface you intend to stick the light strip on.
- 2 Peel off the backing strip off the 3M adhesive tape.
- 3 Press and hold the light strip firmly against the surface.
- 4 Plug the DC Adapter into your car's 12V DC power socket.
- 5 Plug the other end of the DC adapters cord into the LED lighting Controller.
- 6 To power your LED lights, with power to your vehicle's 12V DC port*, press the red power button on the end of DC adapter. The LED strips will illuminate.

*Note: Most vehicles must be on to supply power to its 12V output socket.

Manual Operation

- 1 Double click the multifunction button to turn the lights on and off.
- 2 Single click the multifunction button to cycle through the 8 lighting modes, including the sound reactive mode.
- 3 Long press: long press for 5 seconds to enter Bluetooth pairing mode (LEDs will flash red)

Bluetooth® Setup

In addition to using the controller, you can also use the app to control your LED lighting
Before starting, check that your phone's Bluetooth and data connection are turned on.

- 1 To download the Monster Smart App, scan the Android or iOS (Apple) QR code below with a QR code scanning app on your mobile device, or search for the Monster Smart app in the Apple or Google Play store. Download the App.

- 2 Press the red power button on the end of DC adapter to power on your LED lights.
- 3 Press the controller's multifunction for 5 seconds until the LEDs are flashing red to indicate that the controller is in pairing mode.
- 4 Open the app, follow the instructions to add your LED Lights.
- 5 Customize your LED lights with color and mode options, sound reactive music mode, and set schedules for lighting effects in the app.

App supports iOS 10.0 or higher, and Android 4.4 or higher

IMPORTANT NOTE:

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

—Reorient or relocate the receiving antenna.

—Increase the separation between the equipment and receiver.

—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

—Consult the dealer or an experienced radio/TV technician for help.
