

Workcloud Sync Voice/Video Calling

Workcloud Sync Voice/Video Calling enables powerful voice and video communication capabilities, allowing you to provide workers with a single device to collaborate within and across teams. With Workcloud Sync Voice/Video Calling, empower a more productive, engaged, and knowledgeable workforce.

Seamless Collaboration Across Your Organization

With Workcloud Sync Voice/Video Calling, streamline information sharing for both mobile users and administration/management, enabling effective and quick communication.

Empower frontline workers to make voice and video calls from anywhere, at any time.

Immediately respond to challenges and customer concerns with real-time communication capabilities.

Use ad-hoc voice or video calls to check stock levels, truck arrival times, and hold team meetings.

Simplified, Real-Time Voice and Video Communication

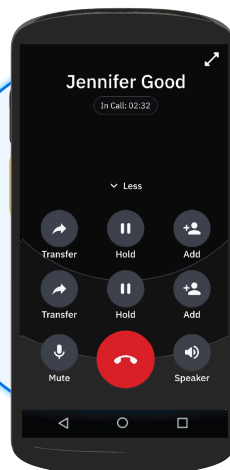

No more chasing down information. No more searching for the right person. Just a unified communication platform to elevate your frontline workforce.

Easy to Use

Shorten time-to-value with a streamlined, intuitive interface, making it easier for frontline workers to adopt and utilize.

Rich Feature Set

Streamline communication with the ability to merge calls, forward calls, transfer calls, use multiple call appearance, access call history, and more.

Dynamic Call Assignment

Dynamically assign calls based on role for a quick response to any challenge on the frontline.

Highly Configurable

Ensure the look and feel of the client aligns to your requirements through personalizing the UI and customizing the user experience.
