

Aura

Where speed, style and sustainability meet

The optimal gateways for your connectivity needs

In today's homes, connectivity is no longer a luxury – it's a necessity. Working remotely, streaming and gaming, our increasingly digitalized lives are reshaping connectivity needs. With more devices, more users and more bandwidth-heavy activities, households expect fast, reliable and secure Wi-Fi.

At Genexis, our mission is clear: **Bringing the World to Everyone's Home.** That means delivering not just connectivity, but a seamless, powerful experience that adapts to the modern life.

Meet the **Aura Series** – our collection of residential gateways, that deliver the connectivity your modern home deserves. The Aura features Wi-Fi EasyMesh™ and is powered by Genexis' award-winning IOWRT open-source software. Combining high-speed performance, elegant design, and sustainable engineering, our gateways form the foundation for a smarter, more connected home.

Designed for ease-of-use

Great connectivity should be simple, and that's why the Aura is engineered for an effortless user experience.

The Aura is easy to install, compatible with any ONT and intuitively managed through the Genexis EasyWiFi App. Its open standard foundation, using IBF standards like TR-069 and TR-369, ensures streamlined management for operators and ISPs.

The gateway for your needs

Whether you're looking for a dependable connection or state-of-the-art performance, there is an Aura for you.

Featuring different Wi-Fi standards, WAN and LAN interfaces or even DECT, the Aura Series offers a range of gateways, ensuring you find one perfectly suited to your needs.

Seamless connectivity

Powered by IOWRT, the Aura delivers smooth connectivity. With integrated Voice/FXS and DECT options for enhanced communication.

Sustainable choice

Made of 90% recycled plastics and 100% recycled packaging. The Aura is built to be refurbished.

Elegant design

Wi-Fi performs best in the open. That's why the Aura is designed to be seen – and to be proud of.
