### Check the Email

The Email is used to receive the message of alarms, change the password and retrieve the password.So please make sure that email address you sign up is definitely right.

Back to Modify    |    Continue

## 2.Connected

You can see this interface after clicking continue.Now click "add device".

Open the vacuum cleaner and long-press the button for 6 seconds until the WIFI indicator flashes.Then "Next".
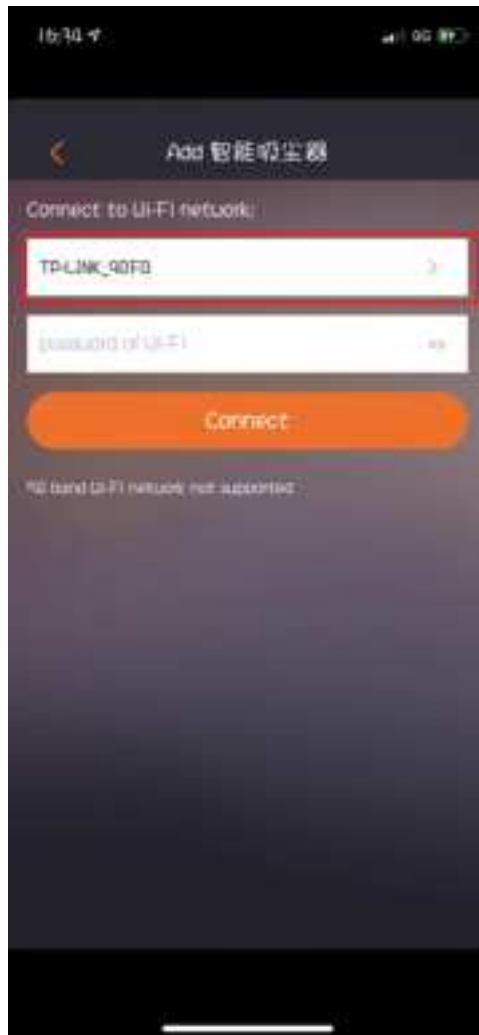

- The system prompts you to connect the wifi of the vacuum cleaner.

- Open your WIFI setting ,connect "HomeMate_AP"

- Back to KV8 interface you can see this "Connect to WIFI network"

- Choose your home WIFI (if you don't have wifi home ,you can't control by your phone)

- Inter password.Let your vacuum cleaner connect with your home WIFI.

- Successed!You can named your vacuum cleaner .
