

60cm Series 9 Contemporary Pyrolytic Oven

Series 9 | Contemporary

A highlight of the Fisher & Paykel collection, this Series 9 oven ensures that every dish you create is cooked to perfection.

- 85L total capacity with 11 oven functions including Roast and Pastry Bake
- Moisture level control with ActiveVent™ technology
- Pyrolytic self-cleaning function breaks down food residue for an easy clean
- Non-tip, full-extension shelves for safe removal of hot dishes

DIMENSIONS

Height	598 mm
Width	596 mm
Depth	565 mm

FEATURES & BENEFITS

- Multi-Function Flexibility**
11 functions including Roast, Pastry Bake and Fan Grill mean no matter what you're cooking, you've got the right heat to match.
- Generous Capacity**
With a generous sized internal cavity, you can create several dishes at once using multiple shelves.
- Activevent Technology**

With ActiveVent technology for optimised moisture levels and AeroTech for even heat distribution, you'll get perfect results even when using multiple shelves.

Cleaning Is Simple
Pyrolytic self-clean breaks down food residue at a very high temperature, leaving a light ash that's easily removed with a damp cloth.

Seamless Fit
Designed to fit seamlessly in your kitchen, this built-in oven fits flush with cabinetry to minimise gaps and add to a cohesive aesthetic.

Safe And Sound
The CoolTouch door features triple glazing and a cooling system that ensures it's safe to touch from the outside – protecting both your hands and the surrounding cabinetry.

The product dimensions and specifications in this page apply to the specific product and model. Under our policy of continuous improvement, these dimensions and specifications may change at any time. You should therefore check with Fisher & Paykel's Customer Care Centre to ensure this page correctly describes the model currently available. © Fisher & Paykel Appliances Ltd 2020

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
