CONNECTIVITY	Bluetooth, ANT+, Wi-Fi
WATERPROOF RATING	IPX7 (Waterproof up to 5 ft)
MOUNTS INCLUDED	Integrated Out Front and Stem

*Patents Pending

MORE THAN A SLEEK HEAD UNIT

The ELEMNT BOLT + Integrated Out Front Mount creates a system with a large smooth surface for the air to slip past, reducing wind resistance and the power (watts) required to maintain speed.

*Patents Pending

SHAPED TO SLICE THE WIND

The sides were tapered to maximize the ELEMNT BOLT's wind-slicing properties following time tested aerodynamic forms.

*Patents Pending

MAXIMIZE READABILITY. MINIMIZE AIR RESISTANCE.

The ELEMNT BOLT System was designed to maximize readability and minimize air resistance. We designed the computer to sit in the integrated out front mount at an angle to optimize your view of the screen.

MAIN FEATURES:

PERFORMANCE DRIVEN AERODYNAMIC DESIGN

ELEMNT BOLT is the first bike computer designed as an integrated system of computer + mount which results in a CFD tested, highly aerodynamic system built to be on the front of your bicycle. In a 40KM TT, a rider averaging 21mph will be approximately 12.6 seconds faster than the leading competitor.

SIMPLE TO SET UP

Wahoo reinvented the bike computer setup process with the introduction of a free companion app with the ELEMNT. Use the companion app to automatically pair ELEMNT BOLT via QR code and then configure workout pages using the easy interface of a smartphone.

SIMPLE TO EXPERIENCE

Using a bike computer shouldn't be the hardest part of the ride. Zoom in and out of workout pages to see 2-9 data fields with no reprogramming required! With dedicated pages for every part of the ride, quickly page over to see a Climbing Page, Lap Page, Map Page and More! Never miss a cue while riding with the revolutionary LED QuickLook Indicators.

SIMPLE TO NAVIGATE

The ELEMNT BOLT comes pre-loaded with maps of almost every country in the world and has wireless integration to Strava, Ride with GPS and Komoot; routes will automatically be downloaded to the ELEMNT BOLT.

SIMPLE TO STAY CONNECTED

The ELEMNT BOLT is a 100% wireless GPS bike computer! Only plug it in to charge it!

SIMPLE TO SUFFER

KICKR CONTROL! Take outdoor rides indoors and control the most powerful smart trainer on the market in three different modes: Erg, Level, or Routes/Ride History.

SUPPORTING FEATURES:

STRAVA LIVE SEGMENTS

Fully integrates with Strava Live Segments to give you accurate progress status and the Final Push to beat your goals.

TAKE ME ANYWHERE

Using the ELEMNT Companion App, enter a destination, address, or point of interest and to generate a route optimized for cycling, complete with turn-by-turn navigation cues on demand, and send the route to the ELEMNT BOLT via Bluetooth.

TURN-BY-TURN NAVIGATION WITH RIDE WITH GPS AND KOMOOT

Build a route in Ride with GPS or Komoot and get pop up and LED notifications on screen.

BEST BIKE SPLIT COURSE AND RACE PLAN

Fully integrates with Best Bike Split to display your target power, speed and time until your next cue. Once your race plan is on the ELEMNT BOLT you can control your KICKR or SNAP indoor bike trainer to ride your race in advance.

ELECTRONIC SHIFTING INTEGRATION

Displays a visual and numerical indication of what front and rear gears you are in as well as how much gear shifting battery remains. Works with Shimano Di2, SRAM eTAP, FSA WE, and Campagnolo EPS.

MUSCLE OXYGEN SENSOR INTEGRATION

Displays saturated and total hemoglobin metrics for your workout or lap. Works with BSXInsight and Moxy Muscle Oxygen Sensors.

TEXT & PHONE ALERTS

ELEMNT BOLT provides on-screen and LED notifications for calls, texts, and e-mails.

QUICKLOOK INDICATORS

Programmable LED indicators provide a quick way to see if you're on pace with important performance metrics like speed, heart rate and power.

LIVE TRACK

Look for fellow Wahoooligans to meet up with nearby or friends and family can remotely track long rides.

E-MAIL INTEGRATION

Send routes via e-mail directly to the ELEMNT BOLT from a smartphone with just a tap.

TWO MOUNTING OPTIONS

ELEMNT BOLT comes with two sturdy and secure mounts; an aerodynamic out-front mount and stem mount.

DESIGNED FOR PERFORMANCE

We partnered with leaders in performance design to create a computer that helps you achieve your best results, not just record them.
