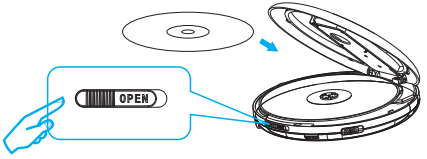
USER GUIDE

How to insert a disc

Push the OPEN button to the right to open the door. Insert your index finger into the center hole of the disc and take the edge of the disc with your thumb. Keep the side with words upward while inserting the disc into CD player, press the disc gently to make it steady, and make sure if the disc has been in place. Close the disc door gently and completely, otherwise the player will not read the disc.
(Note: The player is only compatible with CD, CDR, MP3, HDCD formats.)

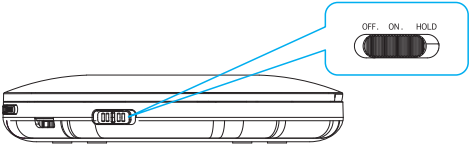


Insert an earphone

Only earphone with 3.5mm plug is compatible with this player. In order to experience better sound quality, you can use standard earphones of an iPhone on the player, but some earphones of cellphone may produce noise. If the earphone cannot be supported by the player, please use standard headphones of this player.

How to turn on the player

The power switch is located on the side. Please toggle it to ON position to play normally. When a disc is played to the end or there is no disc, the player will enter a standby mode after 30 seconds. Please press the PLAY button again to restart the player.
Note:The power switch has a key lock function which is designed to lock the operation of all the keys. A HOLD word will be displayed on the screen at this time. Do not toggle the power switch to the HOLD position before the operation is completed.

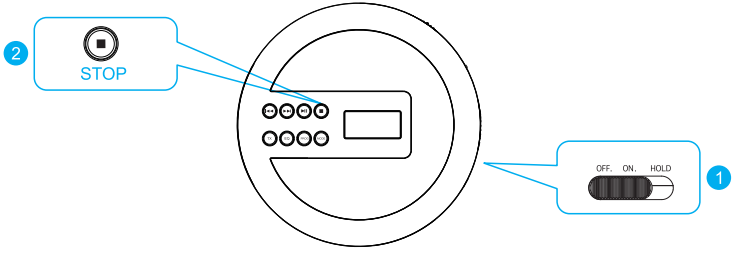


How to turn off the player

There are two ways to turn off the player:

1. Please toggle the power switch to OFF position if the player will no longer be used for a long time;
2. The player will enter a standby mode by pressing the STOP button twice in succession, but at this time, the power of the player is not completely disconnected.

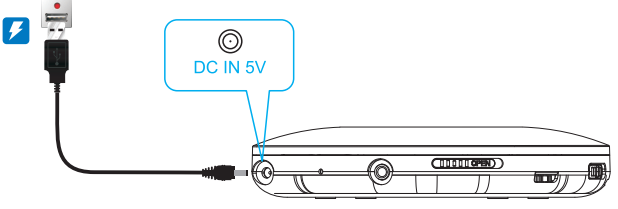
Note: Please turn the power switch to OFF position if the player will no longer be used for a long time.



How to charge for the player

How to choose a charger: This product is only equipped with one charging cable. You can choose any charger that supports USB2.0 protocol or standard USB charger of a cellphone running in Android or iOS system to charge for the player.

Charging time: It will take around 4 hours to fully charge the player according to the standard USB2.0 protocol.When the battery is being charged, the LED indicator is red.Once the player is fully charged, the LED indicator will turn blue.



PLAY

How to setup the circle mode

Each time the MODE button is pressed, the order of the tracks played will be as follows:Repeat 1(REP1), Repeat all(ALL), random play (SHUF), preview play (INTRO) (only 10 second per track will be played in this mode) .

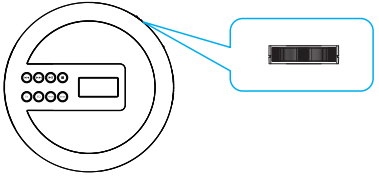
How to program the play

Press the PROG button to enter the programming mode when the play stops, press the PREVIOUS or NEXT button to select the track you want to program, press PROG again to confirm the programming. Up to 30 tracks can be programmed in this mode. After that, press the PLAY button to enter the programming play mode. Press the STOP button directly to enter the stop mode to cancel or reprogram.

How to setup sound

How to adjust volume

The volume knob is located on the side of the player. Rotate it to the left or right to decrease or increase the volume. Please listen to music at an appropriate volume to protect your ears.



How to setup sound effect

Press the SOUND button to changes the different sound effects. There are a total of 5 sound effects:BBS, POP, JAZZ, ROCK, and CLASSIC.

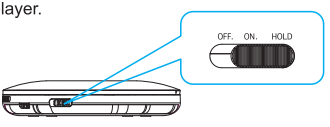
OTHER FEATURES

Time setting of screen sleep

The screen will be turned off after 10 second of inactivity. The screen will be turned on when any button is pressed.

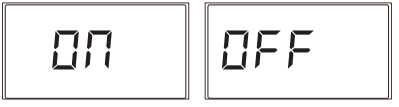
Key lock

After playback mode and sound effects have been setup, you can toggle the power switch to the HOLD position in order to prevent the environment, for example naughty children or crowded occasions from affecting the setting of player.



Last memory

ON: The player will return to the last stop-track on the disc.
OFF: The player will not return to the last stop-track on the disc.
Press and hold the PROG button to turn the last memory function on or off.The ON or OFF word will be displayed on the screen at this time.The last memory function is turned on by default.



Connect to AUX devices

In order to use this player in different occasions, an extra AUX cable has been supplied to connect this player to any device with AUX interface conveniently, such as: home theater, music center, Bluetooth speakers, vehicles, headphone amplifiers and more.
