Safety, Warranty & Quick Start Guide

Model Number: P06SA / P06SC

Reading before using your tablet

Reading first - regulatory information

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Device overview

Model	Description
P06SA	Wifi Android Tablet PC without camera
P06SC	Wifi Android Tablet PC with camera
Power Rating	5Vdc, 2.5A

Using your device for the first time

Charging the tablet

You might need to charge the battery before using your device.

Insert the DC plug of the power adaptor into the DC port of the tablet pc and plug in the power adaptor to a wall outlet. .

Below are battery icons showing different status of the battery.

Low battery

Fully charged

Charging

Turning on/off

Turn on: Press and hold the Power button until "Securus" appears on the LCD.

Turn off: Press and hold the Power button for a few seconds, then tap Power off.

Restart: Press and hold the Power button for about 10 seconds to restart.

Important safety and handling information

Built-in rechargeable battery notice

This device contains a Lithium Ion Battery.

Caution: The battery used in this device may present a fire or chemical burn hazard if mistreated. Do not disassemble, do not heat above 60 degrees C (140 F), do not crush or puncture the battery, or short external contacts or incinerate. See more information on the Quick Start Guide. Tips for proper care of your tablet battery include:

- Don't overcharge.
- Avoid using the tablet when it's plugged in.
- Store your device at the correct (cool) temperature.
- Don't let the battery get all the way to 0% before recharging.
- Never use an unauthorized charger.
- Avoid physical stress to your tablet.
- Turn off your device when charging.

Caution about high volume usage

Warning: Exposure to loud noise from any source for extended periods of time may affect your hearing. The louder the sound, the less time is required before your hearing could be affected. To protect your hearing:

- Limit the amount of time you use headsets or headphones at high volume.
- Avoid turning up the volume to block out noisy surroundings.
- Turn the volume down if you can't hear people speaking near you.

If you experience hearing discomfort, including the sensation of pressure or fullness in your ears, ringing in your ears or muffled speech, you should stop listening to the device through your headset or headphones and have your hearing checked.

To prevent possible hearing damage, do not listen at high volume levels for long periods.

Environmental, recycling, and disposal information

Important battery and WEEE information

Batteries and electrical and electronic equipment marked with the symbol of a crossed-out wheeled bin may not be disposed as unsorted municipal waste. Batteries and waste of electrical and electronic equipment (WEEE) shall be treated separately using the collection framework available to customers for the return, recycling, and treatment of batteries and WEEE. When possible, remove and isolate batteries from WEEE prior to placing WEEE in the waste collection stream. Batteries are to be collected separately using the framework available for the return, recycling, and treatment of batteries and accumulators.

FCC compliance statement

FCC ID: 2AZJPJP6S

This device complies with Part 15 of FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by JPay, Inc could void the user's authority to operate the equipment

RF Exposure Information (SAR)

This device meets the government's requirements for exposure to radio waves. This device is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission of the U.S. Government.

The exposure standard employs a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit set by the FCC is 1.6 W/kg. Tests for SAR are conducted using standard operating positions accepted by the FCC with the EUT transmitting at the specified power level in different channels.

The FCC has granted an Equipment Authorization for this device with all reported SAR levels evaluated as in compliance with the FCC RF exposure guidelines. SAR information on this device is on file with the FCC and can be found under the Display Grant section of www.fcc.gov/eot/ea/fccid after searching on FCC ID: 2AZJPJP6S.

While there may be differences between the SAR levels of various devices and at various positions, they all meet the government requirement.
