C4-CVB1-A	Sony CAT5e to Component Video Balun For use with the Sony Component Matrix Switch (Discontinued).	\$89.00
Panelized Lighting		
C4-DIN-8DIM-E	8-Channel Dimmer Controls up to eight (8) loads from one module in the Control4 system. Adaptive phase dimming supports a variety of load types including incandescent, halogen, electronic low voltage transformers, magnetic low voltage transformers, fluorescents, compact fluorescents, LEDs and motors. Automatically detects the load type and sets the appropriate dimming mode.	\$1,200.00
C4-DIN-8REL-E	8-Channel Relay Controls up to eight (8) high in-rush loads from one module in the Control4 system. Each channel supports a variety of load types including Incandescent, Halogen, Electronic Low Voltage Transformers, Magnetic Low Voltage Transformers, Fluorescents, Compact Fluorescents, LEDs and Motors.	\$850.00
C4-DIN-8TV-E	8-Channel 0-10V Dimmer Controls up to eight (8) 0-10V dimmable fluorescent ballasts or LEDs. Each channel can control up to 50 ballasts. Eight (8) low-voltage outputs for triggering external power relays.	\$900.00
C4-DIN-8ESW-E	8-Port Ethernet Switch A standard 8-port 10/100 switch that allows a single Ethernet CAT5e cable to be pulled into a lighting panel, and then distributed to up to seven (7) other Control4 panelized lighting devices including Dimmer, Relay, and Bus Ethernet Bridge Modules within the panel.	\$350.00
C4-BPS48	Bus Power Supply, 48V (Shipping early August) Provides power for US Configurable Wired Keypads only. Mounts in the Control4 5 or 2-slot panel separately from the DIN rail and does not occupy a slot space.	\$150.00
C4-DIN-BEG	Bus Ethernet Gateway (Shipping early August) Connection point for all wired keypads and other devices on the Control4 RS-485 system bus. Converts RS-485 communication to ethernet for usage with the panelized lighting modules and a Control4 control system. Can be installed in either a 2 or 5-Slot panel or a third-party DIN rail panel.	\$250.00
C4-KCB-XX	Decora Wired Keypad with Configurable Buttons Compatible with decora faceplates. Flexible button configuration. Provides a user interface that controls any aspect of a Control4® system including lights, scene, music, security and more. All buttons are backlit and can be custom engraved. Each button includes an RGB status LED to provide visual feedback for lights, scenes or any other automation event.	\$200.00
C4-SKCB-XX	Square Wired Keypad with Configurable Buttons Compatible with square faceplate. Flexible button configuration. Provides a user interface that controls any aspect of a Control4® system including lights, scene, music, security and more. All buttons are backlit and can be custom engraved. Each button includes an RGB status LED to provide visual feedback for lights, scenes or any other automation event.	\$200.00
C4-DIN-2PAN	2-Slot Panel Houses all centralized components of a Control4 Panelized Lighting System. DIN rail mounting for modules allows modules to easily snap on or off. Can be surface or flush mounted.	\$500.00
C4-DIN-5PAN	5-Slot Panel Houses all centralized components of a Control4 Panelized Lighting System. DIN rail mounting for modules allows modules to easily snap on or off. Can be surface or flush mounted.	\$750.00
C4-DIN-TB-8DIM	8-Channel Dimmer Terminal Block Supports the 8-Channel Dimmer Module. Mounts in a 2 or 5-Slot Panel and is used to terminate field wiring (Line, Neutral, and Load) for each circuit.	\$70.00
C4-DIN-TB-8REL	8-Channel Relay Terminal Block Supports the 8-Channel Relay Module. Mounts in a 2 or 5-Slot Panel and is used to terminate field wiring (Line, Neutral, and Load) for each circuit.	\$80.00
C4-DIN-TB-PO	Power/Override Terminal Block Supports the 8-Channel 0-10V Dimmer, 8-Port Ethernet Switch and Bus Power Supply Modules. Mounts in a 2 or 5-Slot Panel and is used to terminate field wiring (Line, Neutral, and Load) for each circuit.	\$25.00
C4-DIN-SF	Panel Slot Filler, 2-Pack Fills empty slots in Control4 Panelized Lighting panels. Each 2-Pack will fill one slot in the panel.	\$12.00
C4-DIN-SC	Panel Security Cover Prevents access to buttons on the front of the Control Panelized Lighting modules when installed in a Control4 Panel.	\$65.00

Wireless Lighting		
C4-APD120-xx	Adaptive Phase Dimmer, 120V The dimmer of choice for virtually any load type. This dimmer eliminates much of the guess-work associated with choosing the right dimmer for the job and prevents the need to replace the dimmer if the load type changes in the future. Supports both forward phase (leading edge) and reverse phase (trailing edge) dimming.	\$180.00
C4-APD277-XX	Adaptive Phase Dimmer, 277V The dimmer of choice for virtually any load type. This dimmer eliminates much of the guess-work associated with choosing the right dimmer for the job and prevents the need to replace the dimmer if the load type changes in the future. Supports both forward phase (leading edge) and reverse phase (trailing edge) dimming.	\$180.00
C4-FPD120-xx	Forward Phase Dimmer, 120V Provides an economical solution for dimming forward phase compatible loads, including incandescents, line-voltage halogens, and magnetic transformers. The Forward Phase Dimmer is particularly useful when dimming high-wattage loads such as chandeliers and large banks of recessed lights.	\$140.00
C4-KD120-xx	Keypad Dimmer, 120V Combines the dimming capabilities of the Control4® Wireless Adaptive Phase Dimmer with the flexibility of the Control4® Wireless Configurable Keypad. Unlock the power of one-touch automation simply by replacing an existing light switch with a Keypad Dimmer.	\$250.00
C4-KD277-xx	Keypad Dimmer, 277V Combines the dimming capabilities of the Control4® Wireless Adaptive Phase Dimmer with the flexibility of the Control4® Wireless Configurable Keypad. Unlock the power of one-touch automation simply by replacing an existing light switch with a Keypad Dimmer.	\$250.00
C4-SW120277-xx	Switch, 120V/277V Provides on/off control for a variety of load types. With its robust relay and high amperage rating, the Switch can handle even high in-rush loads such as fountain pumps or large banks of fluorescent lights.	\$140.00
C4-4SF120-xx	Fan Speed Controller, 120V Provides elegant, quiet fan speed control of standard paddle-type ceiling fans. Allows fan speed control to be incorporated into a Control4® system for climate scheduling and other automated events. Controls a single paddle-type ceiling fan up to 2A.	\$190.00
C4-TV120277-xx	0-10V Dimmer, 120V/277V Provides elegant, in-wall control of 4-wire 0-10V dimmable fluorescent ballasts and LEDs. Built-in relay provides separate on/off control of line-voltage when required.	\$190.00
Wireless Keypads		
C4-KC120277-xx	Configurable Keypad, 120V/277V An elegant and customizable user interface that unlocks the power of onetouch automation. The keypad can be configured with two to seven buttons using four different button sizes for a total of 37 possible configurations.	\$200.00
C4-KA-xx	Auxiliary Keypad, 120V - 277V An economical solution for 3-way control of a load. Using the existing, in-wall 3-way wiring, the Auxiliary Keypad wires directly to any compatible Control4® Dimmer, Switch, or Fan-Speed Controller.	\$40.00
Wireless Lighting and Keypad Accessories
