### Mounting the camera

#### Select Height and location

Hang the camera 7-10 ft (2-3 m) above the ground. This height maximizes the detection range of the motion sensor of the camera. Avoid placing the camera under direct sunlight.

support@anran-cctv.com

### Installation

1. Drilling according to position sticker, drill bit: 15/64"(6 mm).
2. Insert the plugs.
3. Tighten the screw.

#### What is required:

05 support@anran-cctv.com

### Test the Wifi signal at installation position

Use cell phone to test Wifi signal quality at the installation position before installing camera, make sure the Wifi router can provide good Wifi signal.

support@anran-cctv.com

### Register an account

The ANRAN app that is necessary to operate the camera. Signing up for storage in the cloud is totally optional and is really not necessary when using an onboard Micro SD card.

1. Open the APP to sign up an account. Go to the login interface, and click "Sign Up".
2. Sign up with your email address, and click "Next".
3. Set up a "Nickname" and "Password" for your APP, click "Done" to complete.

### FAQ

- Q:** The device cannot be previewed properly?
- A:** Check whether the network is normal, you can place the camera close to the router, and if not, it is recommended to reset the device and add it again.
- Q:** Why is it still in the list of devices after resetting?
- A:** The reset device only resets the network configuration of the camera, but cannot change the configuration on the App, remove the camera, and must be deleted by the App.
- Q:** How to "connect" the camera to another router?
- A:** First remove and reset the device on the App and then configure the device again by the App.
- Q:** Why doesn't the device identify the SD card?
- A:** It is recommended that the SD card be inserted when the power to the camera is off and that it is fully inserted correctly. Make sure the SD card has been formatted with FAT 32. If not, this can be done via the app.
- Q:** Why can't I receive notifications via the mobile phone's app?
- A:** Please confirm that the App has been running on the phone, and the relevant reminder function has been opened; Message notification and authority confirmation in the mobile phone system have been opened.

### Safety Statement

**FCC Statement**

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: (1) Reorient or relocate the receiving antenna. (2) Increase the separation between the equipment and receiver. (3) Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. (4) Consult the dealer or an experienced radio/ TV technician for help.

**FCC Radio Frequency Exposure Statement**

The device has been evaluated to meet general RF exposure requirements. The device can be used in fixed/mobile exposure condition. The min separation distance is 20cm.

Notice: Shielded cables

All connections to other computing devices must be made using shielded cables to maintain compliance with FCC regulations.
