How to set up Sony SRG-A12 NDI Camera for Zoom Rooms

1. Download and install NDI Tools from NDI (https://ndi.video/tools/#download)
2. Make sure Sony SRG-A12 and your computer are connected to the same network.
3. Open NDI Tools > click to launch Studio Monitor > Select Sony SRG-A12 from the hamburger menu. This will enable you to control the camera and see the live view.
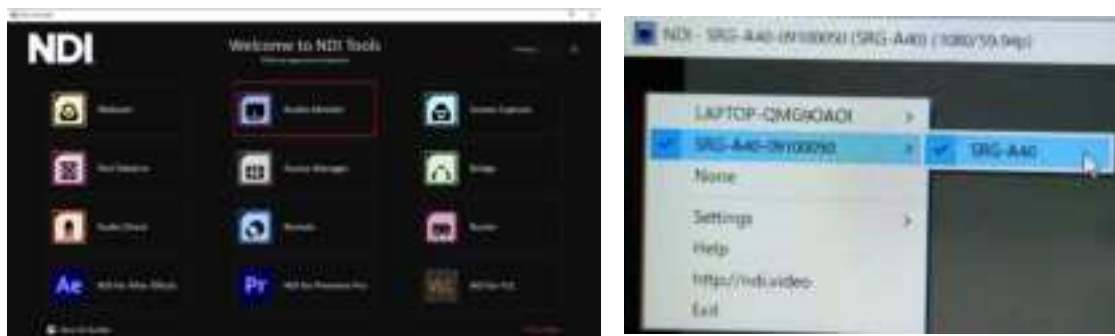

4. Return to NDI Tools > Click to launch Webcam > Click the Show Hidden Icons arrow on the taskbar and select Webcam. Follow the steps pictured to locate Sony SRG-A12.
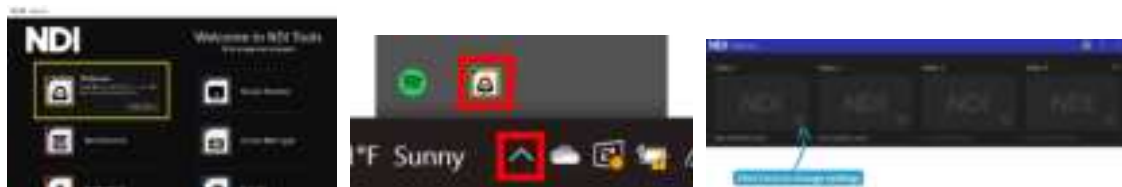

5. Open Zoom Rooms > go to Settings > select the Video Tab. Select NDI Webcam Video as Zoom Rooms camera.

6. Test your camera. Start a Video and you should be able to see your camera's live view.

   Install NDI Tools, launch Webcam, and select NDI Webcam Video as Zoom Rooms camera.
