

A complete manual covering the most comprehensive system in 35mm photography:

NIKON F and NIKKORMAT HANDBOOK OF PHOTOGRAPHY by Joseph D. Cooper and Joseph C. Abbott is the most complete, authoritative and up-to-date handbook ever written for the Nikon F system. Over 400 pages of vital information—large 7 x 10" format—over 75,000 words of text—and more than 700 photographs, tables, diagrams, charts and illustrations.

Covers Nikon F, Nikkormat FTN, FT and FS, as well as Nikkorex F. Describes all Nikon F finder systems including new Photomic TN. Gives full details and specifications for all Nikkor lenses, and all interchangeable accessories in the Nikon F system.

Nikon, Nikkormat and Nikkorex camera users will find this book an invaluable reference—a veritable short course on how to get the most out of their equipment. The deluxe, hard covered loose-leaf edition (illustrated) is designed to permit the addition of future supplements. A standard cloth-bound edition is also available.
