FEATURES & BENEFITS

EVEN AIR DISTRIBUTION

Louvers are designed to be individually controlled in all directions for optimal temperature distribution throughout your space.

FRESH AIR INLET

The chassis has a special opening that allows fresh air to be supplied to the room, contributing to up to 20% of the airflow without any compromise of cooling capacity.

CONTROL FROM ANYWHERE

Installing the add-on Wi-Fi accessory lets you control your air conditioning from your phone with the SmarHq™ app, or use voice control with a Google or Alexa smart home device.

QUIET OPERATION

A helix fan blade and diffuser are designed for quiet operation.

FLEXIBLE INSTALLATION

This model includes a built-in condensate drain pump with 1000mm lift height for flexible installation.

CENTRAL CONTROLLER

With an optional central controller, you can easily control individual or connected units, and schedule air conditioning to turn on and off automatically.

CORROSION PROTECTION

The hydrophilic Blue Fin coating on the condenser helps resist corrosion from the elements.
