

60cm Series 5 Contemporary Oven, 7 Function

Series 5 | Contemporary

With generous capacity and beautiful Contemporary styling, this built-in oven will complement any kitchen design.

- 85L total capacity
- Seven oven functions including Fan Forced, Pizza Bake and Classic Bake
- Even heat distribution thanks to AeroTech™ technology

DIMENSIONS

| | |
|--------|--------|
| Height | 598 mm |
| Width | 596 mm |
| Depth | 565 mm |

FEATURES & BENEFITS

- Generous Capacity**
With a generous total capacity of 85L, you can create several dishes at once using multiple shelves.
- Even Cooking**
AeroTech™ technology circulates heat evenly throughout the cavity, helping to ensure perfect results when cooking on multiple shelves.
- Easy Cleaning**
The oven door and inner door glass can be removed for quick and easy cleaning.
- Safe And Sound**
The CoolTouch door with triple glazing and cooling system is safe to touch from the outside, protecting your hands and the surrounding cabinetry.

- Seamless Fit**
Designed to fit seamlessly in your kitchen, this built-in oven fits flush with cabinetry to minimise gaps and add to a cohesive aesthetic.
- Complementary Design**
These built-in ovens are finished in black glass with stainless steel dials that blend an elegant, minimalist aesthetic with design for durability.

Multi-Function Flexibility

This built-in oven has seven functions including Bake, Fan Bake and Pizza Bake, allowing you to use a variety of cooking styles.

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
