

BULL PRODUCT GUIDE

BUILT BULL STRONG - FOR LIFE

POWER

From the strength of our construction to the tremendous heat generated from our burners, a Bull Product stands out from the rest and is Built Bull Strong.

RELIABILITY

Bull takes pride in making products that last a lifetime from the most durable materials in the industry. We put our proprietary ReliaBull Even Heat Technology and no-fuss friction based Piezo ignition systems in all of our grills so you can concentrate on your food and not the grill's performance.

VERSATILITY

With Bull you can experience so much more than just burgers and hot dogs. A Bull can grill, bake, braise, boil, smoke, fry and sauté, giving you the versatility to cook anything you can imagine.

FAMILY

When you purchase a Bull product you are joining one of the world's biggest families. Our industry experts guide you through design, purchasing, and expanding their backyard experience as well as offering a vast library of recipes, tips and techniques from world champion chefs to give you the power to unleash your inner GrillMaster.

"From Humble Beginnings"

For most people, tinkering with and testing an open flame grill in your garage is not a good idea. But Mark Nureddine is not most people. His inventive efforts with a grill in a closed environment became the genesis of a company that would grow into one of the leading manufacturers of Outdoor Kitchens in the world. Under Nureddine's direction and leadership for the past 30 years, Bull Outdoor Products has emerged to offer premium Grills, Outdoor Kitchens and Accessories to over 900 dealers and distributors throughout North America as well as 15 countries around the world. From a garage to countless backyards, Bull Outdoor Products are the gold standard when it comes to unBullievable outdoor cooking.

KNOW SERVICE

Bull's commitment to industry leading service is fueled by our outstanding employees, strategically located in Lodi, California and Athens, Tennessee.

Bull provides a premium outdoor cooking experience that is manufactured with the highest quality materials. Bull maintains a complete in-house service department with knowledgeable specialists available to answer any question imaginable. When you purchase a Bull Outdoor product, not only will you know it is made with expert precision, but you'll have Bull's dependable and responsive service department waiting to assist you.

Fact is, when you purchase a premium Bull grill, you're getting a commitment to the highest quality product and most reliable service in the market. Period! Our grills and components are built to last a lifetime and that's why we guarantee that your Bull grill will be the last one you ever purchase.

** Specific warranty details provided with each Bull product*

REINVENT THE ART OF PIZZA MAKING IN YOUR OWN BACKYARD

The modern pizza may have evolved in Naples, Italy in the 18th or early 19th century, but the new modern pizza starts in your own backyard, with the Bull Pizza Oven line. The New Bull Gas Fired Pizza Oven offers the same great features of wood-fired ovens but with the added convenience of cooking with gas. Our Gas Fired Pizza Oven can be fueled using Propane or Natural Gas (with a conversion kit sold separately). In addition Gas Ovens don't require the ash cleanup that is associated with their wood-fired counterparts.

FIRE FEATURES

The perfect end to a great day is relaxing on your patio as the cool evening air chills. No need to grab a heavy coat, simply fire up your Bull Fire Feature and sip on your favorite drink. Enjoy the warmth and elegance of Bull Fire Features year round.

Our fire features deliver 15,000 to 60,000 BTUs of warmth (choose between propane or natural gas), and pre-fab construction allows for easy installation anywhere.
