This equipment complies with ISED radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator& your body.This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. Le rayonnement de la classe b repecte ISED fixaient un environnement non contrôlés.Installation et mise en œuvre de ce matériel devrait avec échangeur distance minimale entre 20 cm ton corps.Lanceurs ou ne peuvent pas coexister cette antenne ou capteurs avec d'autres.

Product features

1. App dimming and color matching
2. Energy saving and emission reduction, long service life
3. Stable performance, safety and reliability
4. Changeable colors, high-end atmosphere
5. Convenient installation and wide applicability

Installation steps

1:Cut off all the electronics components

2:Reconnect the circuit as indicated
 in the picture

3:Turn on the lamp holder

4.Screw the lamp into the lamp holder

5.The lamp is not suitable for discharge
 within 15cm

Precautions during use

1. Before use, determine whether the lamp is damaged or loose.
2. Pay attention to the power supply voltage before installing lamps
3. The light source of the product cannot be changed at will, and the structural parts and seals can not be disassembled

Download original steps：

1. Open the mobile app store and search for TUYA Smart. The above interface is displayed, and click "Install" button
