Product highlights

High steam performance
Higher volume of steam compared to a steam iron. Higher pressure to completely permeate the textile with finer steam. Faster to remove wrinkles.

The world's first 3D BackGlide soleplate
The patented upward curving soleplate guarantees 360° glideability over any fabric and any obstacle – even backwards. Never again will you get stuck on buttons and pockets.

50% less time consuming
According to internal laboratory tests, comparing Braun TexStyle 5 steam iron with Braun CareStyle 3.

Smoothes perfectly and fast
Even backwards.

Small outside, big inside
Huge tank capacity in a super compact design.

Extra large removable tank
Easy to refill, transport and store. Fewer interruptions for refilling, which makes ironing faster.

Cord storage
For easy transportation and storage CareStyle 3 is equipped with clips on either side to store the power cord and steam cord.

CalcClean system
Ensures long-lasting performance from your device. The LED panel alerts you to any build-up of mineral scaling, and the cleaning process is simple and convenient.

Easy lock system
Easy lock system to store the iron securely and easily.
