### Name of Parts

### What's Inside

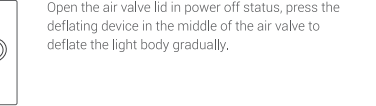

**Note:** Due to continuous updates and upgrades of the products, there may be differences between the actual products and the pictures. Therefore, the pictures are for reference only, products to prevail in kind.

### Instruction for Inflation

Open the air valve lid in power off status, insert the air pump into the air valve port and press it continuously to inflate the light body, then close the lid after fully inflated.

### Instruction for Deflation

Open the air valve lid in power off status, press the deflating device in the middle of the air valve to deflate the light body gradually.

### Power Switch

This light has two power-on modes: power switch button and plug-and-play (no need to press the power switch button). The factory default is to press the power switch button to start, i.e., connect the light to DC power source with USB-C male plug, then press the power switch button to turn on/off. Press and hold the power switch button for 1.5s in the power off state, you can switch between the two power-on modes.

### Brightness Adjustment

Short press the + button in power on status to increase the brightness, while short press the - button to decrease the brightness. The brightness is adjustable in 10 levels among: 10%, 20%, 30%, 40%, 50%, 60%, 70%, 80%, 90% and 100%.

### CCT Adjustment

Short press the COLOR button in power on status to switch CCT in 5 levels in recycle: 3000K, 3800K, 4600K, 5600K and 6500K.

### Power Identification

When the light cannot be turned on with the last memorized power due to insufficient power supply, short press the power switch button three times (do not press continuously), it will boot up at the lowest brightness and the last saved color temperature.

### Factory Reset

Press and hold the +/- button for 1.5 seconds at the same time, and the light body will boot up at the lowest brightness and lowest color temperature.

### Technical Data

Model	OT40 Bi Pro	OT80 Bi Pro
Power Supply	5V  2A, 9V  1A	5V  3A, 9V  1.67A
Input Power	Max.≈7W	Max.≈15W
CCT	5 levels: 3000K, 3800K, 4600K, 5600K, 6500K	
Brightness	10 levels: 10%, 20%, 30%, 40%, 50%, 60%, 70%, 80%, 90%, 100%	
Ra	Average≥96	Average≥96
TLCI	Average≥98	Average≥98
Illuminance Data (100% brightness and 5600K CCT)	≈992lux/92.1fc(0.98ft/0.3m)	≈1670lux/155fc(0.98ft/0.3m)
	≈430lux/39.9fc(1.64ft/0.5m)	≈870lux/80fc(1.64ft/0.5m)
	≈124lux/11.5fc(3.28ft/1m)	≈280lux/26fc(3.28ft/1m)
Working Environment Temperature	-10℃~+40℃	-10℃~+40℃
Light Body Dimension (excluding charging cable)	15.7" * 3.9" * 0.7"	31.5" * 3.9" * 0.7"
Net Weight ≈	118g	181g

### FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:  
(1) This device may not cause harmful interference, and  
(2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:  
-Reorient or relocate the receiving antenna.  
-Increase the separation between the equipment and receiver.  
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.  
-Consult the dealer or an experienced radio/TV technician for help.

### Warranty

Dear customers, as this warranty card is an important certificate to apply for our maintenance service, please fill in the following form in coordination with the seller and safe-keep it. Thank you!

Product Information	Model	Product Code Number
Customer Information	Name Address	Contact Number
Seller Information	Name Contact Number Address Date of Sale	
Note		

**Note:** This form shall be sealed by the seller.

### Applicable Products

The document applies to the products listed on the Product Maintenance Information (see below for further information). Other products or accessories (e.g. promotional items,giveaways and additional accessories attached,etc.) are not included in this warranty scope.

### Warranty Period

The warranty period of products and accessories isimplemented according to the relevant Product Maintenance Information. The warranty period is calculated from the day(purchase date) when the product is bought for the first time,And the purchase date is considered as the date registered onthe warranty card when buying the product.

### How to Get the Maintenance Service

If maintenance service is needed, you can directly contact the product distributor or authorized service institutions. You can also contact the Godox after-sale service call and we will offer you service. When applying for maintenance service, you should provide valid warranty card. If you cannot provide valid warranty card, we may offer you maintenance service once confirmed that the product or accessory is involved in the maintenance scope, but that shall not be considered as our obligation.

### Inapplicable Cases

The guarantee and service offered by this document are not applicable in the following cases: ❶ **The product or accessory has expired its warranty period;** ❷ **Breakage or damage caused by inappropriate usage, maintenance or preservation, such as improper packing, improper usage, improper plugging in/out external equipment, falling off or squeezing by external force, contacting or exposing to the improper temperature, solvent, acid, base, flooding and damp environments, etc;** ❸ **Breakage or damage caused by non-authorized institution or staff in the process of installation, maintenance, alternation, addition and detachment;** ❹ **The original identifying information of product or accessory is modified, alternated, or removed;** ❺ **No valid warranty card;** ❻ **Breakage or damage caused by using illegally authorized, nonstandard or non-public released software;** ❼ **Breakage or damage caused by force majeure or accident;** ❽ **Breakage or damage that could not be attributed to the product itself.** Once met these situations above, you should seek solutions from the related responsible parties and Godox assumes no responsibility. The damage caused by parts, accessories and software that beyond the warranty period or scope is not included in our maintenance scope. The normal discoloration, abrasion and consumption are not the breakage within the maintenance scope.

### Maintenance and Service Support Information

The warranty period and service types of products are implemented according to the following Product Maintenance Information:

Product Type	Name	Maintenance Period(month)	Warranty Service Type
Parts	Circuit Board	12	Customer sends the product to designated site
	Battery	3	Customer sends the product to designated site
	Electrical parts e.g.battery charger, etc.	12	Customer sends the product to designated site
Other Items	Flash tube, modeling lamp, lamp body, lamp cover, locking device, package, etc.	No	Without warranty
