

SmallRig

Cold Shoe Adapter with Furry Windscreen (for Sony ZV Series)

Operating Instruction

SmallRig Cold Shoe Adapter with Furry Windscreen for Sony ZV series cameras 3526 allows the camera to be fitted with both a windshield and a LED light. It solves the problem of the hot shoe is occupied and the accessories cannot be installed after the windshield is installed on the camera. The cold shoe adapter slides into the hot shoe on the camera and features a scratch-resistant cushion on the bottom, which locks the camera securely. High-quality nylon cold shoe comes with more strength and toughness. The kit comes with a dedicated windshield, with soft faux fur and thickened inner design to effectively reduce noise in outdoor shooting. The cold shoe is also compatible with the original windshield. Optional White Windshield 4734 is separately available. The cold shoe adapter is compact, lightweight and easy to carry around, providing the simplest vlog solution for ZV-1 II / ZV-1 / ZV-1F / ZV-E1 / ZV-E10 / ZV-E10 II creators.

Safety Guidelines

1. Environment

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

2. Load Capacity

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

3. Cleaning & Maintenance

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

4. Structural Integrity

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

5. Malfunctions

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.
