CAP2D

Smart Access, 2-Door Controller

A behind the scenes powerhouse, the CAP2D provides a scalable cloud-based solution to easily manage and control access independently or as part of a complete system for resident only and community amenity access points.

Popular features

Multiple-Entrance Control
With myQ® Community.

Eliminates Wiring
Between controllers in multiple-entrance applications with myQ Community.

Universal Compatibility
With 26-, 30- and 37-bit Wiegand-compatible readers, receivers and readers.

Expansive Capacity
For 25,000 active credentials stored locally so residents can enter even when the Internet is down.

Remote Programming
And activity monitoring using myQ Community.

Easy to Install
In new or existing properties.

Backed-up Storage
myQ Community ensures that databases are never lost and a backup lithium battery preserves the system's data during primary power outages.

Power over Ethernet (PoE)
Allows for flexibility of device placement.

Email Alerts
Over 75 alerts available including door ajar, door closed, door forced open, gate ajar and too many invalid PINs.

Real-time Activity Tracking
With myQ Community.

Cloud-based Security
Keeps data protected and safeguards resident information.

Managing credentialed access

myQ® Community cloud-based web platform lets you conveniently manage and control multiple access points across all communities in your portfolio from a single dashboard. With 24/7 ability to easily add/delete residents, assign access to specific entrances and receive real-time activity alerts you can maximize efficiency and improve operations.

Control for gates

Monitor and control any gated access point through the myQ Community web platform or with personalized vehicle tags and keypad credentials.

Control for doors

Enable secure, credentialed access to nearly any walk-through door in any residential or commercial application with proximity card readers or keypad credentials.

Product Ecosystem

LEGEND

A **CAPCELL**
Cellular 4G/LTE Wi-Fi® Modem
Connects CAP2D.

RFID Long-Range Reader and
Vehicle Tags
Reads RFID vehicle tags 20' - 30'
away reducing vehicle congestion.

*3-button Passport MAX Remote Controls compatible with the PPWR Receiver for gate access control and LiftMaster Security+ 2.0 315MHz and 390 MHz and residential garage door openers. 1-Button Passport Lite Remotes not compatible with LiftMaster residential garage door openers.

Specifications

Administrative USB

Connect Mini-USB cable to access administrative functions

Power Configuration

Jumper selects between PoE or wired power supply

External

12V Power

Backup Lithium Battery

Preserves the system's data during primary power outages

Capacities

- 2 controlled gates/doors
- 25,000 local resident capacity
- 6,000 local event history (FIFO) offline from host
- Multiple, holiday and hold-open scheduling
- Compatible Wiegand Input formats: 26 Bit, 30 Bit, 37 Bit (HID) and 32 Bit (MiFare)
- No facility code limitations (1-256 for 26-Bit); feature available to ignore facility code

Mechanics

- Compact size mounts on standard single electrical-gang box or in a NEMA enclosure
- LED indicator lights communicate status

Operating Temperatures

- -31°F to 150°F (-35°C to 66°C)

Communication Internet (Dynamic or Static IP)

- DSL with at least 1 MB download speed
- Cellular (optional CAPCELL)

Power

- 12VDC, min. 1.5 amps (transformer not included)
- PoE (802.3af) enabled network devices, 13 watts max.
- UL 294® Listed
- Backup lithium battery preserves the system's data during primary power outages

2 Year Warranty

1 Carton Shipping Details

Dimensions: 7.5"W x 5.0"H x 3.0"D

Contents: 1 CAP2D, miscellaneous hardware

Weight: 1.0 lb.
