W820NB Plus

Wireless Noise Cancellation Over-Ear Headphones

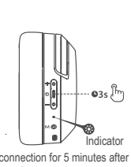
— Manual —

BC

EN

Power ON/OFF

1. Power ON: press and hold the "⏻" key for about 3s when powered OFF until the LED blinks blue.
2. Power OFF: press and hold the "⏻" key for about 3s when powered ON until the LED blinks red.



Note:
Under wireless mode: 1. If there is no Bluetooth connection for 5 minutes after power on, the headphones will turn off automatically. 2. If there is no Bluetooth connection when the noise cancellation is on, the headphones will turn off automatically after 4 hours.

Pairing

Pairing for the first time
1. Press and hold the "⏻" key for about 3s when powered off. Blue and green LED will blink alternately and rapidly.
2. Select "EDIFIER W820NB Plus" in your device setting to connect. Blue LED will blink twice after connected.

Note:
For subsequent use, the headphones will automatically connect to the device used last time.

Pairing for new device
1. Press and hold the "⏻" key for about 6s when powered off to skip the latest connected device and pair the new Bluetooth device. Blue and green LED will blink alternately and rapidly.
2. Select "EDIFIER W820NB Plus" in your device setting to connect. Blue LED will blink twice after connected.

Reset

Simultaneously press and hold the "＋" "－" keys for about 5s when powered on to clear pairing records. Blue LED will blink 6 times rapidly when successful.

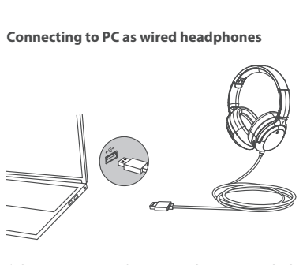
Charging

1. Connect the small end of the included USB cable to the USB-C port of the headphones and connect the other end to a USB-A power supply or wall charger(not included).
2. Orange LED is steady lit when charging and off when fully charged.

Note:
Please do not charge the headphones when there is sweat or other liquids inside the charging port, which may damage the headphones.

Input: 5V ⎓ 1A

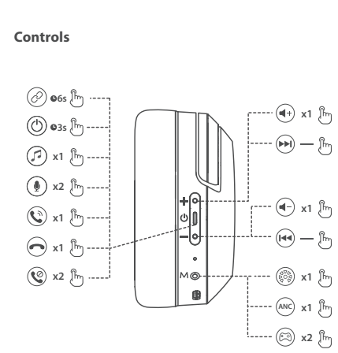
Connecting to PC as wired headphones



1. Connect the small end of the included USB cable to the USB-C port of the headphones and connect the other end to the USB-A port of the PC.You can listen to music, talk and charge the headphones after the connection is successful.
2. Orange LED is steady lit when charging and green LED is steady lit when fully charged.

Note:
It is recommended to use the included USB cable, and other cables may have compatibility issues that prevent them from working properly.

Controls



Note:
1. — : Press and hold.
2. Default sound control: noise cancellation & ambient sound.
3. Images are for illustrative purposes only and may differ from the actual product.
4. Download Edifier Connect App for more customizable control settings.

連接電腦作為有線耳機使用

1. 將本產品包裝盒內附帶的USB線的小頭連接耳機USB-C口，另一端連接電腦USB-A口，連接成功後可進行聽歌、通話及對耳機充電。
2. 充電時，橙燈常亮；充滿後綠燈常亮。

注意：
建議使用本產品包裝盒內附帶的USB線，其他USB線可能存在相容性問題，無法正常工作。

控制

注意：
1. —：長按。
2. 默認聲音模式：noise cancellation & ambient sound。
3. 本說明書中的圖片均為示意圖，可能與實物有偏差，請以實物為准。
4. 更多拓展功能可通過Edifier Connect App來操作。

FCC statement:
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
IC statement:CAN ICES-003(B) / NMB-003(B).

FCC ID: Z9G-EDF200
IC:10004A-EDF200

R 210-200927

Input: 5V ⎓ 1A

Hereby, Edifier International Limited declares that the radio equipment type EDF200118 is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address: https://www.edifier.com/int/eu-doc.html

Declaration for EU
Frequency Band: 2400Mhz-2483.5Mhz
RF Power Output: ≤13dBm (EIRP)
There is no restriction of use.

Specific Absorption Rate (SAR) information:

This (Edifier International Limited) meets the government's requirements for exposure to radio waves. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies.
The standards include a substantial safety margin designed to assure the safety of all persons regardless of age or health.

FCC RF Exposure Information and Statement
The SAR limit of USA (FCC) is 1.6 W/kg averaged over one gram of tissue. Device types: (EDF200118) (FCC ID: Z9G-EDF200) has also been tested against this SAR limit. The highest SAR value reported under this standard during product certification when properly worn on the body is 0.046W/kg. This device was tested for typical body-worn operations with the back of the handset kept 0mm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain a 0mm separation distance between the user's body and the back of the handset. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided.

Body-worn Operation
This device was tested for typical body-worn operations. To comply with RF exposure requirements, a minimum separation distance of 0mm must be maintained between the user's body and the handset, including the antenna. Third-party belt-clips, holsters, and similar accessories used by this device should not contain any metallic components. Bodyworn accessories that do not meet these requirements may not comply with RF exposure requirements and should be avoided. Use only the supplied or an approved antenna.

"Este equipamento não tem direito à proteção contra interferência prejudicial e não pode causar interferência em sistemas devidamente autorizados".
