Wear with Ease

Properly wear the device on your wrist and adjust it at a comfortable position. Below picture as reference.

Tip: While using Heart Monitor Rate, please wear the device a little tight.

Download & connect with APP

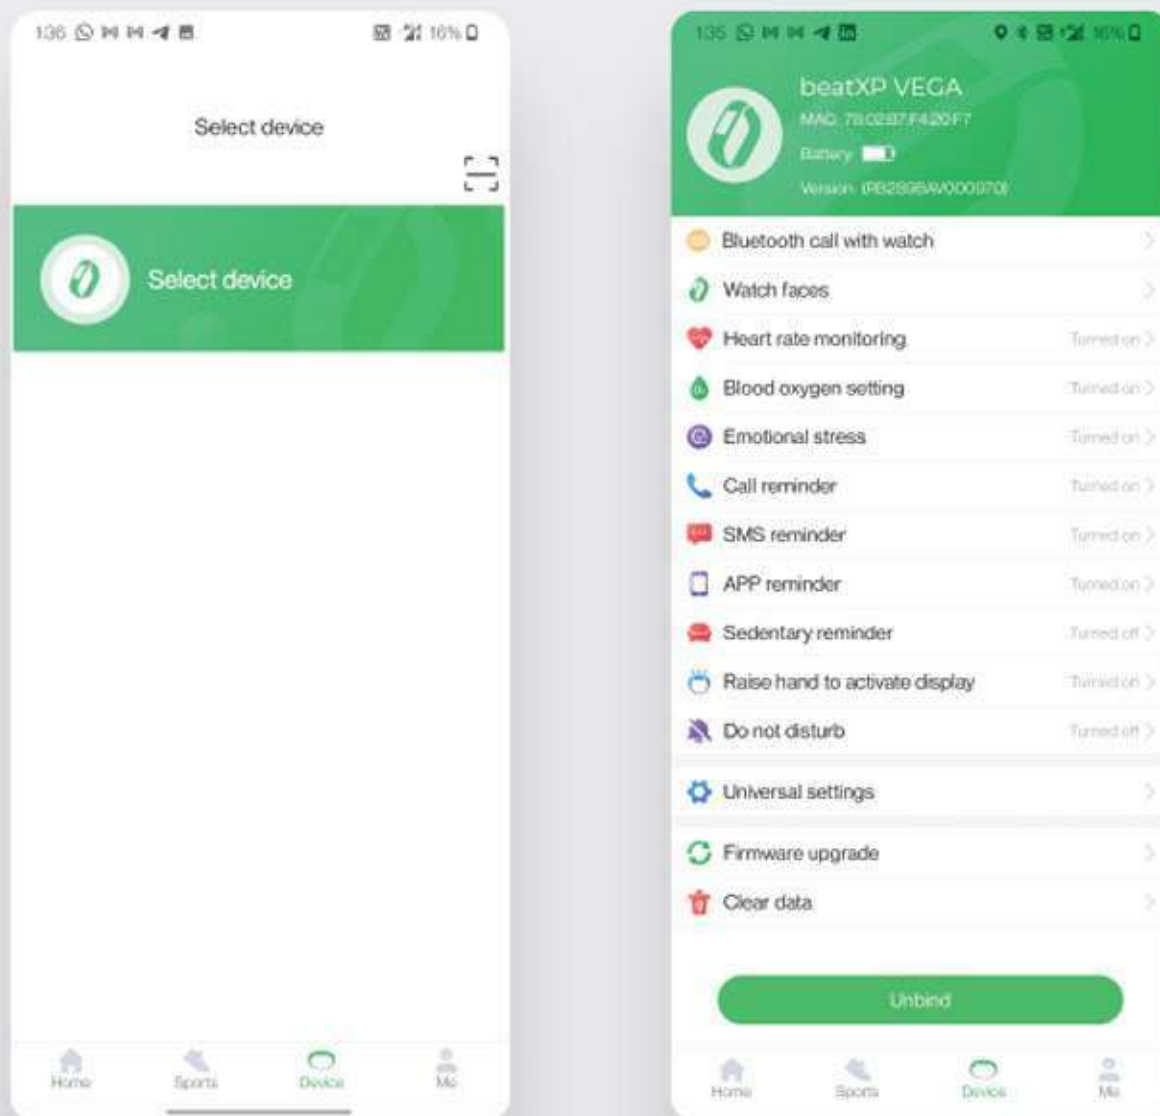

To get detailed records of your day to day activities and health status, you can download “GloryFit” App. You can connect your smartwatch and device with simple steps. Connect with the “GloryFit” App and enjoy the features.

Check out the following steps to download and install GloryFit App to begin your fitness journey :

- Scroll down on watch face
- Click “Settings--QR code”
- Use your device to scan QR code to download & install “GloryFit” App
- Alternatively, you can download and install “GloryFit” App from Play Store for android device and App Store for iOS device.

- Open “GloryFit” App, select "Add Device" on the device page, and follow the instructions written below on the screen.

Call with Bluetooth feature

Android Devices

Once the watch is connected to “GloryFit” App correctly:

- Connect device through bluetooth to the smartwatch
- Pop-up reminder will appear as “PAIR”
- Choose to pair with “**beatXP Vega**”
- Your device is now successfully connected
- Go to settings page of your device
- Select and connect with “**beatXP Vega**”
- Click to pair
- Bluetooth call feature can be used once paired successfully

iOS Devices

Once the watch is connected to “GloryFit” App correctly:

- Go to settings page of your device

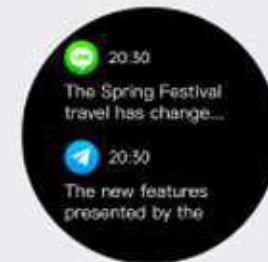

- Select and connect with “**beatXP Vega**”
- Click to pair
- Bluetooth call feature can be used once paired successfully

Tips to Boost the Performance:

1. Please upgrade the “GloryFit” App to the latest version to get a better experience.
2. Recommended device system: Android 5.0 or above and IOS 9.0 or above.
3. For connecting for the first time with iPhone, “Pair” reminder will pop-up, click to pair, then incoming calls and instant messages will be displayed.
4. For the first time connection with Android, “Permissions” reminder will pop-up, please follow up the guidance and allow permissions to ensure that all functions are working properly.
5. To connect successfully, please turn on mobile phone’s Bluetooth, GPS and network.
6. If the device cannot be searched or connected during use, please reset or turn off the watch and try again.

Operating Instructions

- **Shortcut page:** Slide down from the main page to enter the shortcut page.
- **Read notifications :** To read the notifications, scroll up from the main watch interphase. In case of no updates, "No notification" will be displayed.
