PBV10RSTSS

GE Profile™ 10.0 Cu. Ft. 12V DC Bottom Freezer

FEATURES AND BENEFITS

12V DC Power – Designed specifically for use in RVs, this innovative 12V DC bottom freezer RV refrigerator is compatible with both battery and solar power.

Modern 12V DC Bottom Freezer Design – Enjoy this 12V DC bottom freezer RV refrigerator that offers a residential appearance with cutting-edge fresh food storage that is easy to access even when RV slide-outs are retracted.

10 Cu. Ft. 12V DC Refrigerator – Revel in plenty of extra space in this maximized design. Three full-width glass shelves provide a flexible solution in this 10-cubic-foot refrigerator with bottom freezer.

Energy Saving Defrost – Semi-automatic defrost technology allows for improved battery performance and energy savings when compared to traditional RV freezer defrost cycles.

Convenient Refrigerator Organization – This inventive 12V DC bottom freezer design includes glass refrigerator shelves, clear door bins and clear crispier drawers for optimized organization and clear visibility.

Easy Refrigerator Installation – 12V DC refrigerator installation has never been easier thanks to a unique design that requires no external ventilation and zero clearance because of a bottom ventilation design.

LED Lighting – Refrigerator LED lights fully illuminate the entire interior for advanced visibility of all your fresh foods.

Clear Crisper Drawers – Enjoy the freshest fruits and vegetables thanks to innovative crispier drawer that helps optimize food preservation.

Integrated Refrigerator Latches – Factory-installed door pocket handles offer an integrated design and function as refrigerator safety latches to keep doors securely closed when in motion.

Reliable Cooling Performance – Durability-tested compressor and interior fan for increased cooling performance and dependable operation.

Power Management – An easy-access refrigerator on/off switch makes it simple to turn off and manage power usage when the appliance is not in use.
