# ASSEMBLY INSTRUCTIONS

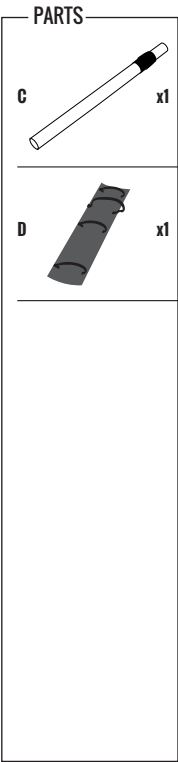

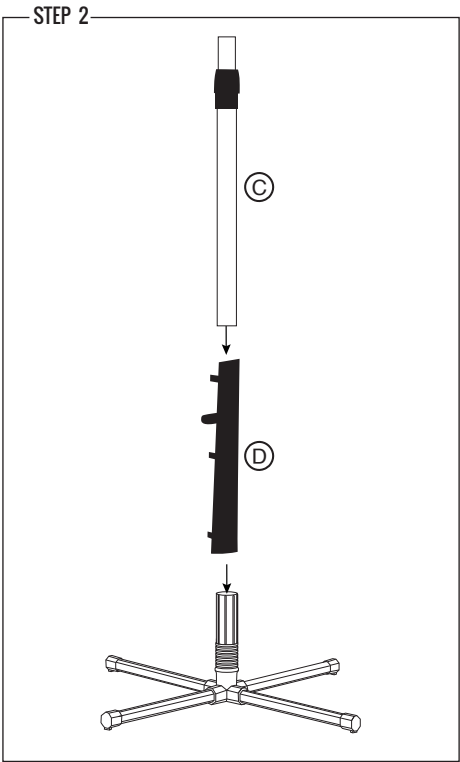

GENERAL NOTE

- Remove all components from packaging.
- Sort all components using the parts list and confirm that all parts are included.

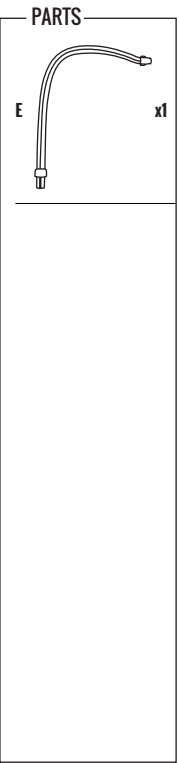

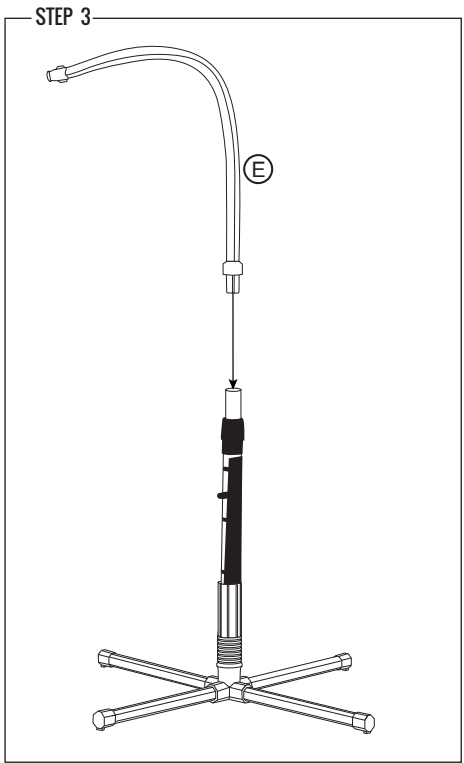

NOTE

Insert **Weighted Legs (A)** into **Tee Base (B)** as shown.

NOTE

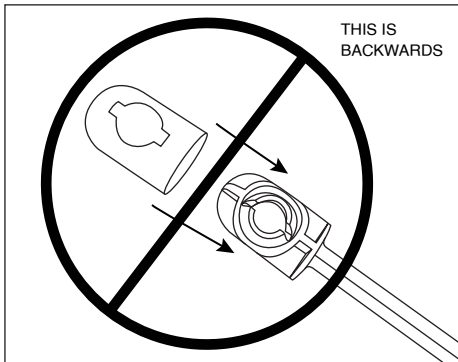

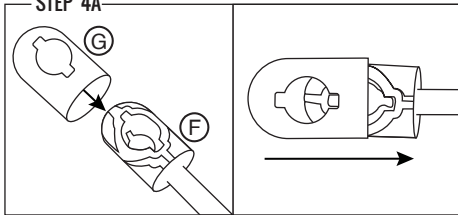

Slide the **Adjustable Tee Tubing (C)** through the **Self-Stick Sleeve (D)**. Once this is done, attach the **Adjustable Tee Tubing (C)** to the base as shown.

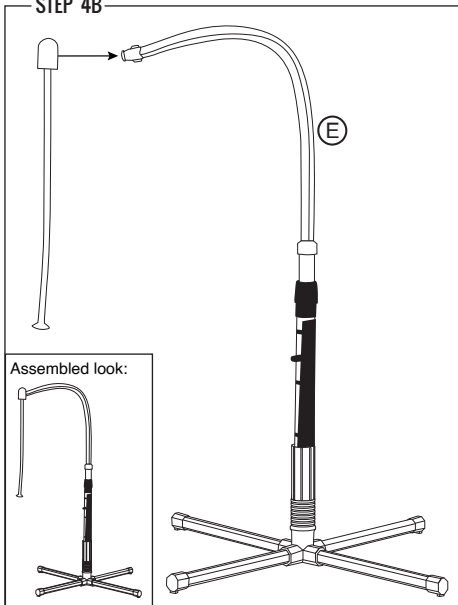

NOTE

Attach the **White Arm (E)** to the tee as shown.

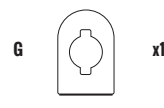

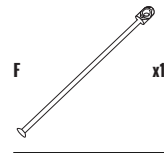

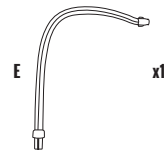

#### STEP 4A

#### STEP 4B

#### PARTS

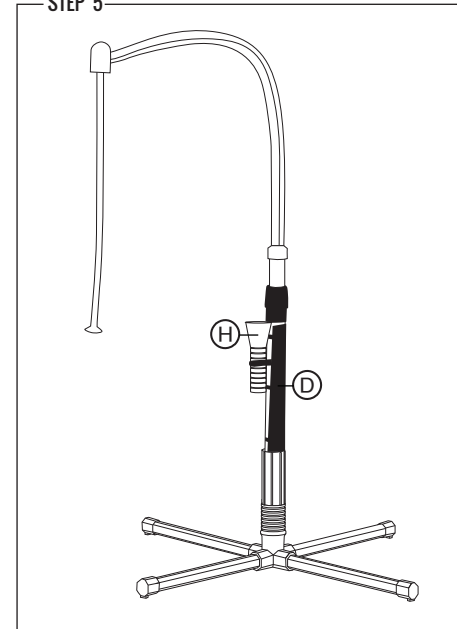

#### NOTE

Turn the **Blue Hanging Tee** (F) to its front, and then slide the **Blue Cap** (G) over as shown.

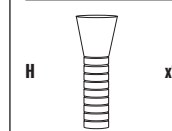

Caution: Make sure this piece is assembled correctly. Failure to assemble correctly will result in a blue piece that is not properly locked into place on the **White Arm** (E). If your blue piece seems like it isn't locking into place securely, then this step has been assembled incorrectly. Take a look at the images to the left to understand which side is the front and which side is the back.

Once the **Blue Cap** (G) has been assembled to the **Blue Hanging Tee** (F), this can be attached and locked to the **White Arm** (E). The Blue Hanging Tee and Blue Cap should click & lock into place if assembled correctly. If you find that this Blue Hanging Tee comes off of the White Arm easily, then the pieces have been assembled incorrectly.

#### STEP 5

#### PARTS

#### NOTE

Your **Traditional Tee Topper** (H) can fasten to the back of the **Self-Stick Sleeve** (D) when playing with this Hanging Tee version so that you don't have to worry about losing pieces!
