

# GODMORGON

## Bathroom series

### Safety

Furniture must be fixed to the wall with the enclosed wall fastener. Different wall materials require different types of fastening devices. Use fastening devices suitable for the walls in your home, sold separately.

Secure that the walls in your bathroom can support the weight of the vanity, and if not, then use legs.

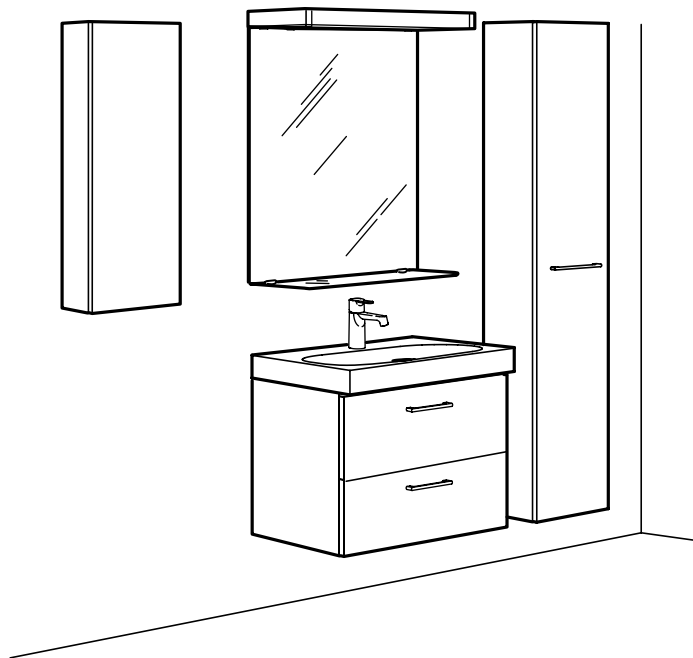

### Care and cleaning

Wipe furniture clean using a cloth damp with water or non-abrasive detergent, then wipe dry with a clean cloth.

The sink and faucet should be wiped clean using a cloth damp with water or non-abrasive detergent.

Sinks in ceramic are resistant to most chemicals, except for strong acids and strong alkalis.

Sinks made of crushed marble should not come in contact with ammonia, acids, strong detergents, hair dye or chlorine.

The GODMORGON bathroom series has a 10-year warranty. Read more in the warranty brochure for IKEA Bathroom.

### Everyone deserves a good morning

With GODMORGON bathroom series you can treat yourself and your family to a beautiful and well-organized bathroom that gives everyone a smooth start in the morning.

If your space is limited, you'll appreciate our shallow cabinets and wall cabinets that take up minimal floor space. If you are sharing your bathroom with others, take a look at our double sinks and faucets that save you both time and precious water. With removable dividers inside the drawers, you get an overview and everything stays organized.

GODMORGON series will withstand years of splashes and humidity thanks to the smart production technique using vertically-wrapped foil. And it's easy to buy, since the vanity and drawers come in one complete package. All you have to choose is the sink and the faucet. Have a good morning!

This is a reference guide created to better assist customers when purchasing products. While a high level of accuracy has been sought in its preparation, we cannot guarantee that there are no errors or omissions nor will we be bound by them. Availability may vary by store and prices are subject to change. Please see an IKEA co-worker or visit [www.IKEA.ca](http://www.IKEA.ca) for more information.

# How to plan

## **What do you want to store?**

Start by thinking of what storage needs you have in your bathroom. Think of the activities that happen in your bathroom, like laundry, shower, clean, and care. How many people use the bathroom and when. Based on these activities, you can plan how many storage units will best suit your needs. Think about the wall space you have available for a vanity and sink, since this is the centre of most bathroom activities. The GODMORGON series is comprised of vanities of different sizes and storage capacities. The drawers in GODMORGON vanities are smooth running and pull out fully so you can easily see and reach what's inside. Pull-out stops prevent the drawers from being pulled out too far and falling, which is especially practical if you have children. Removable dividers inside the drawers let you customize the space according to your needs.

## **Choose the expression**

After you have decided on the size of the vanity, you can choose between different colours and finishes and find the one that suits both your needs and style. The vanities can be mounted to the wall with or without supporting legs.

Then you need to choose a sink, where you can choose a single, double, or countertop sink, depending on your needs and space. The sinks are made of ceramic or crushed marble. Ceramic sinks have a glazed finish and are easy to clean. They have excellent scratch resistance and are very durable. Crushed marble is comprised mainly of crushed minerals with binding agents. Crushed marble sinks are smooth, durable, and easy to clean. All sinks come with a water trap and strainer.

If you choose a countertop sink you need to combine GODMORGON vanity with TOLKEN countertop. IKEA countertops have been developed with special attention to quality, so they are water resistant, durable, and will last a long time. They come in different sizes that match GODMORGON vanities perfectly. Choose the look that suits you and your bathroom best.

You can find a wide selection of bathroom faucets at IKEA. Choose your faucet based on function and design. All faucets come with a strainer kit, except for SALJEN. All faucets at IKEA have a flow regulator that uses less water but ensures that the water flow feels the same. Most of our faucets have a special function – a cold start function that helps save energy.

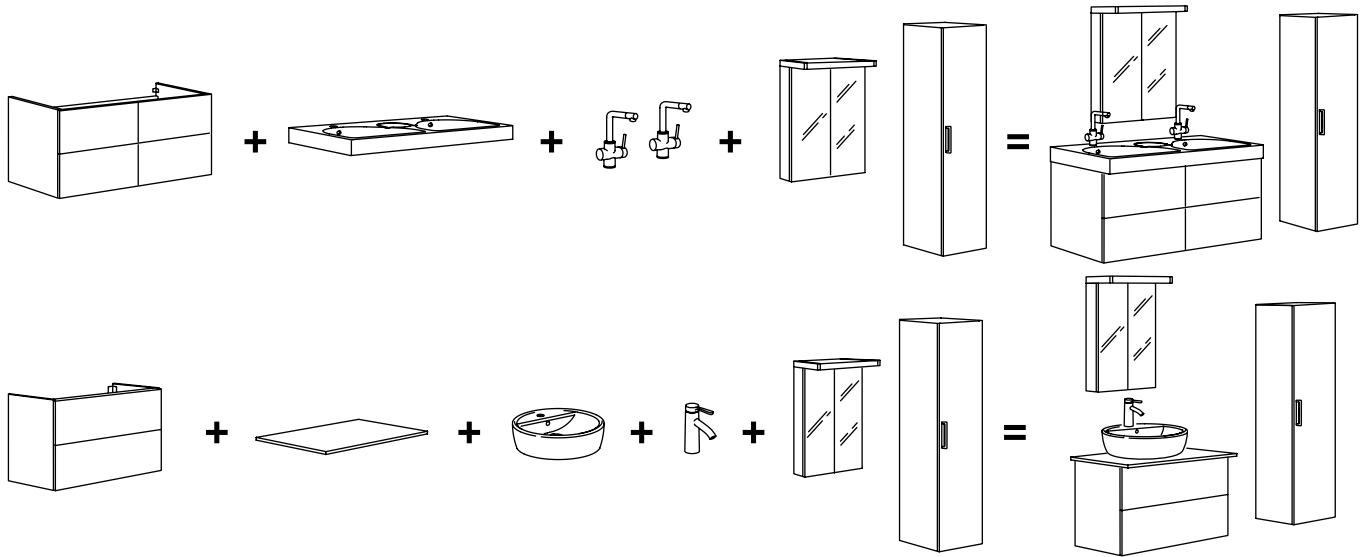

The last thing to decide is what to put above and around your vanity: mirrors, mirror cabinets, high cabinets, or wall cabinets. The combination possibilities are endless. Make your choice based on your bathroom storage needs, space, and style.

## **Choose the accessories**

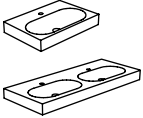

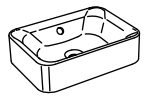

You can even maximize the storage inside the drawers by adding one of GODMORGON accessories that fit the drawers perfectly and keep all your jewelery, make up, brushes, tubes and bottles organized.

# How to combine

Here is a little guide to explain how you can put together your very own GODMORGON bathroom solution. For all the parts and pieces see page 5-7. If you want to browse our ready-made solutions just check [IKEA.ca](http://IKEA.ca).
