

QUIKCELL®

# Screen Care GUIDE

**Crystal-Clear Film**

Screen Protector

# // Step 1

## Wipe It Down

Use the included cleaning wipe to remove any smudges, oil, or dust from your device.

## // Step 2

### Align on Device

Align your screen protector with your device and remove the first layer of clear protective plastic labeled **STEP 1**.

## // Step 3

### Attach Film

Gently place film starting at the base of the phone and slowly working your way to the top. Move your finger in a sweeping motion to apply it to your phone screen and remove all bubbles. Once this layer is applied, you can then remove the second layer of protective plastic labeled **STEP 2**.
