4

- A. Hold the blade control against the upper handle.
- B. Slowly pull recoil starter rope handle from engine and slip starter rope into the rope guide.
- C. Tighten rope guide wing knob.

5

Pour the entire contents of the supplied oil bottle into the oil fill. Check the oil level by inserting the dipstick (not threading it) into the oil fill (Refer to the Operator's Manual).

Oil fill located on the left side of most engines

6

Fill tank with fresh gas to within 1/2-inch of top of tank. Do *not* overfill. Do not use E85 or fuel containing more than 10% Ethanol.

Fuel fill located on the left side of most engines

7

Make sure the spark plug boot is connected to the spark plug before attempting to start.

Spark plug located on the front of most engines

8

Fuel Valve (if equipped): Rotate the fuel valve into the OPEN position

9

Recoil Start (all models)

While standing behind the mower, pivot the blade control against the upper handle. Grasp the recoil starter rope handle and pull with quick, full-arm stroke. If the engine does not start after three pulls, wait a few minutes and repeat.

or

Electric Start System (if equipped)

NOTE: For battery pack installation, refer to Operator's Manual.

Insert plastic electric starter push key into starter housing.

Standing behind the mower, pull the blade control back against the upper handle. While holding the blade control, push the electric starter push key to start the engine.

NOTE: Electric starter is equipped with an internal circuit breaker. If unit fails to start when starter button is depressed, wait one minute for breaker to reset, then attempt to start again.

IMPORTANT: READ OPERATOR'S MANUAL AND ENGINE MANUAL THOROUGHLY AND FOLLOW THE IMPORTANT SAFE OPERATION PRACTICES BEFORE OPERATING.
