

Introduction

Making Life Easier and Safer

Staying in touch with your family and friends is convenient and easy when using your microTALK® radio. Some of the many uses you will discover include:

Communicating with others while hiking, biking, and working; keeping track of family and friends at a crowded public event; checking with travel companions in another car; talking with neighbors; arranging meeting spots with others while shopping at the mall.

Secure your microTALK® radio while on the go.
Carrying your microTALK® radio with you is easy when using the belt clip or optional wrist strap.
The belt clip easily attaches to your belt, purse, or backpack.

Customer Assistance

Product Service & Support

In this user's guide, you should find all the information you need to operate your microTALK® radio. If you require further assistance after reading this guide, Cobra offers the following customer assistance services:

For Assistance In The U.S.A.

For any questions about operating or installing this new Cobra product, PLEASE CONTACT COBRA FIRST... do not return this product to the retail store. The contact information for Cobra will vary depending on the country in which you purchased and uses the product. Introduction

Product Features

1. Antenna
2. External Speaker/Microphone
3. USB Charge Jack
4. Mode/Power Button
5. Call/Lock Button
6. Channel Up/Down Buttons
7. Backlit LCD Display
8. Speaker/Microphone
9. Volume Up/Down Buttons
10. LED Light Button
11. Talk Button
12. Memory/Escape Button
13. Tri-Watch Button
14. Scan Button
15. Rewind-Say-Again® Button
16. Wrist Strap Connection
17. Belt Clip
18. Battery Compartment
19. Battery Door Screws (2)
20. Rubberized Grips
21. LED Flashlight
22. Weather Button

- #### Features
- 22 Channels
 - 10 Channel Weather Radio
 - Weather Alert
 - 121 Privacy Codes (38 CTCSS codes/ 83 DCS codes)
 - Hands-Free Operation (VOX)
 - VibrAlert® Silent Paging
 - Rewind-Say-Again®
 - Tri-Watch
 - Scan Channels, privacy codes
 - Backlit LCD Display
 - LED Flashlight
 - Call Alert Ten selectable tones
 - Button Lock
 - Speaker/Microphone
 - Charge Jack
 - Roger Beep Selectable On/Off
 - Battery/Power Saver
 - Keystroke Tones Selectable On/Off
 - Battery Level Indicator
 - Low Battery Audible Alert
 - Auto Squelch
 - Belt Clip

Backlit LCD Display

1. Battery Level Indicator
2. Roger Beep Icon
3. VOX Icon
4. Weather Icon
5. Lock Icon
6. Hi/Med/Low Power Icon
7. DCS/CTCSS Icons
8. Scan
9. Memory Icon
10. Weather Alert Icon
11. DCS/CTCSS Privacy Code Numbers
12. Power Saver Icon
13. Channel Numbers
14. Receive/Transmit Icon
15. Memory Channel Number
16. VibrAlert® / Call Alert Icon
17. Key Tone Icon
18. BURP Icon
19. Rewind-Say-Again® Icon
20. Signal Strength Meter

Caring for Your microTALK® Radio

Your microTALK® radio will give you years of trouble-free service if cared for properly. Handle the radio gently. Keep the radio away from dust. Avoid exposure to extreme temperatures.

Installing Batteries

- Use only the supplied rechargeable batteries and charger for recharging your Cobra microTALK® radio.
- Cobra recommends your radio is turned off while being charged.
- It normally takes about 15 hours to fully charge batteries.
- Non-rechargeable alkaline batteries can also be used in your radio.

This radio floats with included NiMH batteries. It may not float with some other AA batteries.

A-3

Operation

Using Your Radio

For charging microTALK® radio(s) in desktop charger:

1. Insert radio(s) into desktop charger as shown.
2. Insert the micro-USB cable into jack on back of charger.
3. Plug the charging cable into a power source near the equipment that is easily accessible.

Note: Charger should be installed near the equipment and easily accessible.
The charge indicator light will stay **on** until the charging is complete.

Quick Start

1. Press and hold the **Mode/Power** button to turn **on** your radio.
2. Press the **Channel Up** or **Channel Down** button to select a channel.

Both radios must be tuned to the same channel/privacy code to communicate.

3. Press and hold the **Talk** button while speaking into the microphone.
4. When finished talking, release the **Talk** button and listen for a response.

Turning on Your microTALK® Radio

Press and hold the **Mode/Power** button until you hear a series of audible tones indicating the radio is **on**.

Your microTALK® radio is now in **Standby** mode, ready to receive transmissions. The radio is always in **Standby** mode except when in the Weather Mode or when the **Talk**, **Call** or **Mode/Power** buttons are pressed.

2

Battery Low

When battery power is low, the final bar in the **Battery Low** icon will blink and an audible tone will sound twice before the radio shuts off. Your batteries should be replaced if using alkaline batteries or recharged if using rechargeable batteries.

The radio's LCD display will show a blinking charging status indicator while charging.

Auto Battery Save

If there are no transmissions within 10 seconds, the radio will automatically switch to **Battery Save** mode and the **Power Saver** icon will flash in the display. This will not affect the radio's ability to receive incoming transmissions.

Communicating with Another Person

1. Press and hold the **Talk** button.
2. With the microphone about two inches (5 cm) from your mouth, speak in a normal voice.
3. Release the **Talk** button when you are finished talking and listen for a response.

You cannot receive incoming calls while pressing the **Talk** button.

Both radios must be tuned to the same channel to communicate.

To Select a Channel

With the radio **on**, select any of the 22 channels by pressing the **Channel Up** or **Channel Down** button.

Both radios must be tuned to the same channel to communicate.

See page 19 for frequency allocations.

3

Lock Function

The Lock function locks the **Channel Up**, **Channel Down**, **Volume Up**, **Volume Down**, **Mem/ESC**, **Tri Watch**, **Scan**, **Rewind-Say-Again**, **Weather**, and **Mode/Power** buttons to prevent accidental operation.

To turn the lock on or off:
— Press and hold the **Call/Lock** button for two seconds.
A double beep sound is used to confirm your lock **on** or **off** request. When in **Lock** mode, the **Lock** icon will be displayed.

microTALK® Range

Your range will vary depending on terrain and conditions. In flat, open country your radio will operate at maximum range.

Buildings and foliage in the path of the signal can reduce the range of the radio.

On Channels 8 through 14, your radio automatically switches to low power, which will limit the range the radio can communicate.

Dense foliage and hilly terrain will further reduce the range of the radio.

On Channels 8 through 14, your radio automatically switches to low power, which will limit the range the radio can communicate.

Dense foliage and hilly terrain will further reduce the range of the radio.

Dense foliage and hilly terrain will further reduce the range of the radio.

Operation

Mode Functions (continued)

Roger Beep Confirmation Tone

Your listener will hear an audible tone when you release the **Talk** button. This alerts the other party that you have finished talking and it is OK for them to speak.

To turn roger beep on or off:

- Press the **Mode/Power** button repeatedly until the **Roger Beep** icon flashes. The current **on** or **off** setting is displayed.
- Press the **Channel Up** or **Channel Down** button to select roger beep **on** or **off**.
- Choose one of the following:
 - Press the **Mode/Power** button to enter the new setting and proceed to other functions.
 - Press **Talk** or **Call/Lock** button to return to **Standby** mode.
 - Do not press any buttons for 12 seconds to enter the new setting and return to **Standby** mode.

Key Tone On/Off

When **Key Tone** is **On**, an audible tone will sound each time a button is pressed.

To turn key tone on or off:

- Press the Mode/Power button repeatedly until the Key Tone (music note) icon flashes with the current on/off setting.
- Press the **Channel Up** or **Channel Down** button to select key tone on or off.
- Choose one of the following:
 - Press the **Mode/Power** button to enter the **Standby** mode.
 - Press **Talk** or **Call/Lock** button to return to **Standby** mode.
 - Do not press any buttons for 12 seconds to enter the new setting and return to **Standby** mode.

Weather (WX) Alert Mode

Turning On the Weather Alert function will allow your radio to automatically receive NOAA weather signals and warnings from designated weather broadcast stations. If the radio is turned **ON**, it will alert to Weather and other emergency alerts broadcast by NOAA.

This feature is set to **OFF** by default.

Make sure the strongest Weather channel is selected for your area using the NOAA All Hazards Radio Channels selection in the previous menu.

To turn Weather Alert On or Off:

- Press the **Weather** button to enter the **All Hazards (Weather)** radio mode.
- Press the **Weather** button again and the Weather Alert icon flashes on the display. The current **On** or **Off** setting is displayed.
- Press the **Channel Up** and **Channel Down** button to turn Weather Alert **On** or **Off**.
- Press the **Weather** button again to save the new setting.

Rewind-Say-Again®

Rewind On/Off

If **Rewind** is enabled, the last 20 seconds of incoming audio is recorded and you can play back calls by pressing the **Rewind** button.

To set the Rewind mode ON or OFF:

- Press the **Mode/Power** button repeatedly until the **Rewind** icon appears.
- Press Channel Up/Down button to select **ON** or **OFF**.
- Press **Push-to-talk (PTT)** button to save entry. Use the Cobra exclusive **Rewind-Say-Again®** feature to replay or record the last 20 seconds of an incoming audio transmission.

Example 1:

When music or conversation creates too much noise to hear an inbound message clearly, press the **REWIND** button to hear the message again.

Example 2:

When listening to an important message with distracting background noise, press the **REWIND** button to hear the message repeated. To erase the recorded audio, hold down the **REWIND** button while turning on the radio. 2 confirmation beeps will be heard indicating that the recorded audio has been erased.

Hold the **Rewind** button to lock the recording memory (the **Rewind** icon flashing) and save the currently recorded transmission.

10 Memory Location

Your microTALK® radio has **10 Memory Locations** for storing your most frequently used channels and channel/privacy code combinations. These **Memory Locations** can be selected individually or can be scanned.

To program a memory location:

- Press and hold the **MEM/ESC** button. **Memory** icon and **Memory Location** will show on the display.
- Press the **Channel Up** or **Channel Down** button to select the memory location (0 through 9).

If a location has been programmed before, its associated channel/privacy code will be shown on the display.

- Press the **MEM/ESC** button to enter a new memory location or edit an already programmed memory location.

- Press the **Channel Up** or **Channel Down** button to select the memory location.

- Press the **Channel Up** or **Channel Down** button to select a channel (1 through 22).

- Press the **MEM/ESC** button. The **CTCSS** icon and privacy code numbers will flash on the display.

Choose one of the following:

- Press the **Channel Up** or **Channel Down** button to select a CTCSS privacy code (00 through 38) for the channel.
- Press the **MEM/ESC** button to switch from CTCSS to DCS. The DCS icon and privacy code numbers will flash on the display. The **Channel Up** or **Channel Down** button can then be used to select a DCS privacy code (00 through 83) for the channel.

IMPORTANT NOTICE:

WARNING: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: 1) This device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Safety Information for microTALK Radios

Your wireless handheld portable transceiver contains a low power transmitter. When the talk button is pushed, it sends out radio frequency (RF) signals. The device is authorized to operate at a duty factor not to exceed 50%. In August 1996, the Federal Communications Commissions (FCC) adopted RF exposure guidelines with safety levels for handheld wireless devices.

Important

FCC RF Exposure Requirements: For body-worn operation, this radio has been tested and meets the FCC RF exposure guidelines when used with Cobra accessories supplied or designated for this product. Use of other accessories may not ensure compliance with FCC RF exposure guidelines. Use only the supplied antenna. Unauthorized antennas, modifications or attachments could damage the transmitter and may violate FCC regulations.

Normal Position:

Hold the transmitter approximately two (2) inches from your face and speak in a normal voice, with the antenna pointed up and away.

FCC Part 15.21 Warning Statement-

NOTE: THE GRANTEE IS NOT RESPONSIBLE FOR ANY CHANGES OR MODIFICATIONS NOT EXPRESSLY APPROVED BY THE PARTY RESPONSIBLE FOR COMPLIANCE. SUCH MODIFICATIONS COULD VOID THE USER'S AUTHORITY TO OPERATE THE EQUIPMENT.

IC RSS-GEN

This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions:

- this device may not cause interference, and
- this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

- l'appareil ne doit pas produire de brouillage, et
- l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

If "cF" flashes in place of the privacy code numbers, a privacy code is already set in the opposite (CTCSS or DCS) system. Press the **Channel Up** or **Channel Down** button to cancel the opposite code and select a privacy code from the active system for the selected channel.

9. Choose one of the following:

- Press the **MEM/ESC** button to enter the channel/privacy code in the selected memory location. Press the Channel Up or Channel Down to proceed to the next memory location, which will blink.
- Press and hold the **MEM/ESC** button to save the current state of the Set Memory Function and press the **MEM/ESC** button again return to Standby mode.

To recall a stored memory channel location:

- Press the **MEM/ESC** button once for the Memory icon and the memory location number to flash on the display.
- Press the **Channel Up** or **Channel Down** button to select a memory location (0 through 9).

If a location has been programmed before, its associated channel/privacy code will be shown on the display.

- Press and hold the **MEM/ESC** button to return to **Standby** mode on the selected memory location.

A memory location can be reprogrammed at any time it is displayed. Press the **MEM/ESC** button to begin.

Tri-Watch Set-up

Your microTALK® radio can be set up to scan three of your favorite channels for activity.

To Program or Edit the Tri-Watch Channels:

- Press and hold the **TRI-WATCH** button from **Standby** mode for two (2) seconds to activate **Tri-Watch Setup** mode. The **TW** icon on the display will turn **ON**.

The main channel number will flash to indicate channel position.

- Press **Channel Up** or **Channel Down** button to select the desired **Tri-Watch** channel.
- Press and release **TRI-WATCH** button to confirm entry.
- Repeat steps 2 and 3 to program the remaining additional **Tri-Watch** memory channel.
- After programming the **Tri-Watch** memory channels the radio will immediately engage **Tri-Watch** mode.

Using Tri-Watch:

- From **Standby** mode, press the **TRI-WATCH** button. The **TW** will appear in the display along with the three channels stored in the **Tri-Watch** memory.
- The radio will scan through the three (3) **Tri-Watch** memory channels.
- A signal on any one (1) of the three (3) channels will stop the scan for 6 seconds after the last incoming transmission, to allow you to listen to the traffic on that location.

After the **Tri-Watch** scan stops to monitor a channel, as long as you do not press any buttons within 6 seconds of the last transmission, your radio will automatically resume scanning the **Tri-Watch** channels.

- Press **Channel Up** or **Channel Down** button to resume scanning the **Tri-Watch** channels or to change the scan direction.
- To **EXIT** the **Tri-Watch** scan, press the **TRI-WATCH** button again, and the radio will return to **Standby** mode.

BURP

BURP features allows the user to expel water from inside the speaker grille. This is useful if the radio is dropped in the water which may become trapped in the speaker grille and muffle the audio.

To activate BURP:

- Press the **MEM/ESC** and **Rewind** buttons at the same time.
- The Burp tone(s) at maximum level will sound from the internal speaker for 8 seconds. During this time, **BURP** will appear in the display.
- Hold the radio with the speaker grille down to help the water drain out.
- After an 8-second interval, the radio will return to standby.

Channel Scan

Your microTALK® radio can automatically scan channels.

To scan channels:

- Press and release the **Scan** button until the **Scan** icon and the channel numbers appear on the display.
- Press and hold the **Scan** button to begin scanning channels.

The radio ignores specific privacy codes while scanning channels.

The **Scan** icon will continue to be displayed when scan is on. Your radio will continue to scan all channels and stop if an incoming transmission is detected. Your radio will remain on that channel for 6 seconds after the last incoming transmission.

During scanning (while receiving an incoming transmission), you can choose from the following:

- Press and hold the **Talk** button to communicate on that channel. Your radio will remain on that channel and return to **Standby** mode.
- Press the **Channel Up** or **Channel Down** button to resume scanning channels.
- Press and hold the **Scan** button to return to **Standby**.

Privacy Code Scan

Your microTALK® radio can automatically scan the **Privacy Codes** (either CTCSS 01 through 38 or DCS 01 through 83) within one channel. Only one set of privacy codes (CTCSS or DCS) can be scanned at a time.

To scan privacy codes:

- While in **Standby** mode, press the **Scan** button twice (CTCSS) or three times (DCS) until the CTCSS or DCS icon and numbers are flashing.
- Press and hold the **Scan** button to begin scanning privacy codes within the selected channel.

The **Scan** icon will continue to be displayed when privacy code scan is on. Your radio will continue to scan privacy codes and stop as an incoming transmission is detected. Your radio will remain on that channel/privacy code for 6 seconds after the last incoming transmission.

NOAA* All Hazards Radio Channels

You can use your microTALK® radio to listen to **NOAA All Hazards Radio** channels transmitting in your area.

To listen to All Hazards Radio channels:

- Press the **Weather** button once, the **All Hazards Radio** icon and the currently selected All Hazards Radio channel are displayed.
- Use the **Channel Up** or **Channel Down** button to change **All Hazards Radio** channels.
- The **All Hazards Radio** icon will continue to be displayed when **All Hazards Radio** is on.
- To exit **All Hazards Radio**, press the **Talk** button.

*National Oceanographic and Atmospheric Administration

Warranty & Trademark Acknowledgment

Limited One-Year Warranty

Cobra warrants your product against all defects in materials and workmanship for a period of one (1) year from the date of original purchase.

Cobra, at our sole discretion, will repair or replace your product (with the same or comparable product) free of charge.

Cobra will not pay shipping charges that you incur for sending your product to us. Products received COD will be refused.

To make a warranty claim, we will require proof or purchase in the form of an invoice or receipt. No proof of purchase is required for factory direct purchases.

Warranty Exclusions: Warranty does not apply to your product under any of the following conditions: 1. The serial number has been removed or modified. 2. Your product has been subjected to misuse or damage (including water damage, physical abuse, and/or improper installation). 3. Your product has been modified in any way. 4. Your receipt or proof-of-purchase is from a non-authorized dealer or internet auction site including E-bay, U-bid, or other non-authorized resellers.

LIMITATION OF WARRANTY: EXCEPT AS EXPRESSLY PROVIDED HEREIN, YOU ARE ACQUIRING THE PRODUCT "AS IS" AND "WHERE IS", WITHOUT REPRESENTATION OR WARRANTY. COBRA SPECIFICALLY DISCLAIMS ANY REPRESENTATION OR WARRANTY INCLUDING, BUT NOT LIMITED TO THOSE CONCERNING THE MERCHANTABILITY AND SUITABILITY OF THE PRODUCT FOR A PARTICULAR PURPOSE. COBRA SHALL NOT BE LIABLE FOR CONSEQUENTIAL, SPECIAL OR INCIDENTAL DAMAGES INCLUDING, WITHOUT LIMITATION, DAMAGES ARISING OUT OF THE USE, MISUSE OR MOUNTING OF THE PRODUCT.

The above limitations or exclusions shall be limited to the extent they violate the laws of any particular state. Cobra is not responsible for products lost in shipment between the owner and our service center.

General Warranty Information

Each product we manufacture is covered by our factory warranty. While each product may have unique components and policy, the general guideline below will apply to most Cobra products.

All Cobra products purchased factory-direct or from our Authorized Resellers will come with a full one to three (1-3) year warranty from the date of the original retail purchase (see policy statement above for full warranty details and exclusions).

Standard accessories packaged with each model will have a one-year factory warranty.

Accessory items have a one-year factory warranty.

Shipping to our facility is not covered in our warranty. Return shipping is included within the US. This warranty is non-transferrable.

For the sake of clarity, 'repair or replace the Product or its defective part' does not include removal or installation work, costs or expenses which include but are not limited to labor costs or expenses.

Cobra will not be responsible for lost packages.
