## HOW TO USE

Step 1. After cleansing, apply the Zero One Day Exosome Shot to your entire face, avoiding the area near your eyes and lips. For the best results, we recommend using the Exosome Shot as the first step in your skincare routine.

Step 2. Gently rub and press with your hands to ensure that the needle-like formula is absorbed deep into your skin.

Step 3. Finish with Medicube's Collagen Jelly Cream (or your daily water-based moisturizer).

**Pro tip!** To maximize the effect, apply the Zero One Day Exosome Serum after using the "Air Shot Mode" of the AGE-R Booster Pro.

### Usage Notes :

Avoid applying near the eyes and lips.

For sensitive and delicate skin, we recommend conducting a patch test before use.

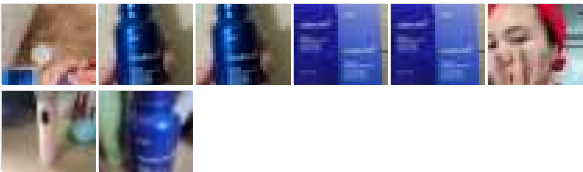

To achieve optimal efficacy, please familiarize yourself with the instructions for use.

You may experience a tingling, redness, itching, and heat sensation

Unique experience

I think it's wonderful, it's a different experience and a way to elevate my skincare routine to another level. I definitely feel it's totally worth it.

Great Microneedling

Caught me off-guard at first. But really helps exfoliate the skin and allows for maximum \*\*\*\*\* for the other products applied after.

Game changer

I have been using this for the past WEEK and I am already loving the results. I would totally recommend this to someone, especially if there skincare just suddenly stops working for their concerns.

So different

I've never use any product like this, I definitely has that tingling sensation but I love the results on my skin texture afterwards

Loved this! Not as bad as I thought . Actually this did not cause much redness to my skin at all! It did make my skin look so nice the next morning after following it up with the collagen jelly cream! Definitely recommend!

I have pretty sensitive/reactive skin so I was nervous to try this. My skin barely gets pink but I'm still getting great results. My pores look smaller and the signs of aging that I've been seeing have reduced a lot

## Aging

I have only used the lower strengt for about a week. So far, I am enjoying the product. I'm looking forward to trying the 7500. I feel that even in a weeks time I can see changes.
