

Slim Ducted, 3.5kW

White

Discreet appearance, this slim ducted indoor unit is part of our Super Match range and can be paired with a universal multi-head outdoor unit.

- UV Protect in Health mode helps to kills airborne pathogens, with anti-bacterial and anti-viral rates above 91%*
- Optional Wi-Fi accessory for remote control using the SmartHQ™ app
- High-efficiency DC fan motor
- Optional panel kit with air supply and intake grille

DIMENSIONS

Height 185 mm

Width 850 mm

Depth 420 mm

FEATURES & BENEFITS

Slim design

For a minimal design solution, this indoor unit fits discreetly into your interior. With a slim profile, it is also ideal for installation in shallow ceiling cavities, such as between floors in multistorey buildings.

UV Protect sterilisation

UV Protect helps to deliver clean air to your room using Health mode, with built-in LED UV lights that kill airborne Staphylococcus aureus bacteria and the H3N2 virus at more than 91% effectiveness under specific test conditions.*

Control from anywhere

Installing the optional Wi-Fi accessory lets you control your air conditioning from your phone with the SmartHQ™ app, or use voice control with a smart home device.

Comfort in all conditions

Control the humidity level inside using the Dry function. By removing excess moisture in the air, you can create a comfortable and healthy environment that feels cooler – all while using less energy than Cool mode.

Efficient DC motor

DC fan motors are renowned for using less energy than a standard AC motor. They are also highly adjustable for better airflow and static pressure tuning to suit your installation.

Peace of mind

Moisture from the air is collected during normal operation. This indoor unit has a condensate pump with built-in fail-safe switch for reliable moisture removal in confined spaces.

Central controller

With an optional central controller, you can easily control individual or connected units, and schedule air conditioning to turn on and off

automatically.

SPECIFICATIONS

Capacity

Cooling capacity (kW)	3.5kW
Heating capacity (kW)	4.0kW

Features

24 Hour timer	•
Blue fin coils	•
Optional panel	P1B-890IA/D
Standard controller	YR-E17A (wired)
Wi-Fi controller compatible	•

Installation

Liquid line	6.35mm
Suction line	9.52mm

Performance

Airflow	600m3/h
R32 Refrigerant	•
Sound power	53dBA
Sound pressure SPL (indoor)	33 / 28 / 25dBA

Power Requirements

Power phase	Single
Supply frequency	50Hz
Supply voltage	220-240V

Product dimensions

Depth	420 mm
Height	185 mm
Net weight	16kg mm
Width	850 mm

Warranty

Parts and labour	5 years
