Worktops

Your kitchen is the heart of your home, it's a room for everyone! How it performs and how it looks are two important factors. Even though doors and drawer fronts are the main style decision you make when updating your kitchen, your worktop can have a big impact on the overall look. However, the perfect worktop is not just about completing the look of your kitchen, it has an impact on its functionality too. All our worktops are made from quartz. Quartz is one of the hardest materials in nature, making the surface extremely durable and scratch resistant. Plus, the surface is smooth, non-porous and easy to keep clean.

All worktops come with a free 10-year guarantee.

Built to last

When we test our worktops we put them up against everything they'll face in your kitchen: liquids, oil, steam, heat, thumps, bumps and scratches. Once we're done we're so sure our worktops will last, we guarantee it.

Quartz worktops

If you choose a quartz worktop you'll get a work surface that's extremely durable, has high impact strength and is scratch-resistant. Engineered quartz worktops are manufactured with minimum 93% natural quartz crystals (one of nature's hardest materials) bonded with high-quality polymer resin, which results in an extremely strong, durable, non-porous and easy-to-clean surface. No need to worry about turmeric and masala staining your benchtop, and no need to apply sealer. Ever!

Good to know
For daily care use a cloth or sponge dampened with water and a mild detergent or glass cleaner. Avoid using a scourer and be sure to dry after use.

How to buy a custom-made Quartz worktop

- 1. Choose a colour.
- 2. Choose an edge.
- 3. Choose your sink – it can be under-mounted or top-mounted.
- 4. Estimate the cost by measuring your kitchen.
- 5. See a kitchen specialist at your local IKEA store to place your order.

How to buy a custom made worktop and wall panel

Custom made the way you want it

Use our simple online calculator to design a custom made worktop and wall panel for your kitchen. You get an instant estimate of what everything will cost, too. You can choose different worktop, wall panel and sink materials, sizes and styles to personalise your kitchen just the way you want it. The custom made worktop calculator makes it super easy to try out different options and compare their prices.

Check it out at [IKEA.in](https://www.ikea.in)

01

Choose your colour

02

The worktop edges

Choose the desired shape and material for the edges. Depending on the material you've chosen for your worktop, you have different options.

03

Choose your sink

Choose the sink you want and if you want it top mounted or under-glued.

04

Take measurements

Then start to measure to see what size and shape of worktop you need. If you would like help with this, or with anything to do with measuring your kitchen, our measuring service can come to your home.

05

We're here to help

To design your custom made worktop and wall panels use our online calculator or get help from an IKEA co-worker in the kitchen department at your local store.

06

Order

To order your custom made worktop and wall panel, please contact an IKEA co-worker in the kitchen department at your local store.

How to measure your worktop

Start by measuring your worktop from the corner where it attaches to the wall. Make sure to make your measurements alongside the wall and always start from the same point. When measuring the depth, start from the wall and measure out. Don't forget to add 1.5 cm for an overhang too. If you need to measure for a freestanding

worktop (For a kitchen island for example), simply start from one end and add 3 cm extra for an overhang.

To measure for a sink start from the same point where you've taken your previous measurements and measure to the centre of where you would like your sink to sit.

We can do it for you

You want a customised quartz worktop, but unsure how to get it installed and delivered? There is no need to worry.

We will make sure that we order it with the millimeter precision. And we will deliver and install it for you.

Wall panels

Walls to match your style!

A quick and easy way to update your kitchen is by adding colour and texture with the addition of a wall panel. Our easy to clean wall panels protect your walls from splashes and flying bits of food, when you are getting dinner ready. They give you a neat finish where your worktop meet the wall and helps you create the look you want in your

kitchen. There are many to choose from, some are even double sided! But if you want to go very personal, you can have your own customised one. Our quartz wall panels protect your walls from splashes and grease. You get the smooth, quality feeling of quartz combined with a durable, easy to clean surface.

Take home today wall panels

Our LYSEKIL wall panels are available to take home today and easy to install. You simply cut them to the right size and put them up on the wall. Follow the included assembly instructions and it can't go wrong.

Sinks

A busy place in the kitchen

The sink and the area around it, is one of the busiest places in the kitchen. You use it for everything from preparing food and rinsing vegetables, to storing dirty dishes and washing up.

To make the activities as easy as possible, choose a sink and sink accessories that match your needs and the way you work in the kitchen.

How to choose your sink

01

How much space have you allocated for the sink? Our sink cabinets are 40, 60 or 80 cm wide.

02

Think about how you prepare food, but also how you wash up. Do you have a dishwasher or do you wash the dishes by hand? Do you need one bowl, two bowls or a sink with drainboard?

03

Complete your sink with sink accessories that help you organise the area in and around the sink, both when you prepare food and when you wash up.

Free
10
Year
Guarantee

We test our sinks to ensure they can withstand the demand of everyday life in the kitchen. That's why all our sinks come with a free 10-year guarantee (except FYNDIG). Find out more on [page 92](#).

Our range of sinks

Single bowl sinks

If space is an issue, one single bowl is a good option. Plus, in a big single bowl you can easily wash large pots and pans. Combine with sink accessories to make the bowl as functional as possible

Double bowl sinks

Having two bowls is ideal if you have a lot going on at the same time. For example, if one of the bowls is piling up with dirty dishes, you can still rinse off vegetables and alike in the other.

1½ bowl sinks

A one and a half bowl sink gives you the same advantages as a double bowl sink, but in a smaller area.

Sinks with drainboard

A sink with a drainboard is ideal for drying dishes as the sloping surface make excess water flow back into the bowl. All our sinks with drainboard are reversible, so you can choose if you want the drainboard to the left or to the right.

Kitchen taps

Saving water at every step

Earth may be covered in a lot of water, but very little of it is drinkable and even less is accessible. No organism can survive without it, and no new water is created. It's constantly recycled, but our freshwater supply is overused; not evenly distributed; and impacted by pollution, contamination and climate change. That's why we equip all our

kitchen mixer taps with a water saving aerator that reduces water use – while maintaining the same water stream. We didn't invent aerators, but think they are an important example of how we can work together to save water for everyone's benefit.

Functions

Kitchen mixer taps with low & high spout

Kitchen Mixer taps with low spouts always have the handle on top, and are ideal for small single bowl sinks. Kitchen Mixer taps with high spout makes it easier to wash dishes, including large pots.

Kitchen organisers

A kitchen easy to live in

Your kitchen isn't fully in function until everything in it has found a place of its own. With smart organisers and acces-

sories, you'll find what you need, when you need it.

Your best kitchen friends

Trays, boxes and waste organisers help you to make the most of the space inside your kitchen cabinets.

The sink area is a busy place. We have accessories with multiple purposes that can help you utilise the area in and around the sink, supporting the work-

flow both when preparing food and washing up.

Utilise the full area in the kitchen, even the walls. With smart wall storage often used items can be close at hand, at the same time you free up workspace.

Create the perfect combination for your drawers

Less time searching, more time for cooking. Clever inside trays for your drawers keep cutlery and kitchen utensils organised and in place.

To really make sure you can see everything in the drawer, complete with kitchen lighting.

Waste sorting combinations

Are you curious about how your waste can become new resources? HÅLLBAR series helps you sort different materials into different bins – a simple action and the first step towards giving waste a new life.

HÅLLBAR waste sorting management serie is a waste management solution for any room of your home and can be built-in and freestanding, whichever you prefer.

The bin's ventilation holes and the form of the bottom allow the air to circulate and dry out the organic waste. This minimises unwanted odours.

A ring on the top edge of the bin hides the waste bag and keeps it in place. It's removable either for easy cleaning or if not being used

The folding handle makes it easy to carry the bin with you to the waste station.

The included sticker can be attached to the bin to mark what you are sorting. Draw or write on the sticker to make it clear what goes in the bin.

MAXIMERA high drawer, 60 cm wide, 45 cm deep

HÅLLBAR bins are designed to meet different waste sorting needs. This narrow combination is suitable if you have limited space and choose to sort your waste at the recycling station.

Kitchen accessories

Whether you have a new, beautifully-planned kitchen or just looking to make improvements in your current one - there are a few secret ingredients that will make life simpler and more enjoyable. For instance, smart organisers create natural spots for storing cooking utensils and gadgets, so the whole family knows where to find them - and where to put them back. Trays, boxes and waste organisers work double shift

by preventing clutter and making the best use of space inside your cabinets and drawers. Wall storage does its magic by putting all those things you use the most, close at hand - right where you need them. And for the busiest place in the kitchen - don't forget the clever accessories around the sink that come in handy when preparing food and washing up.

Work bench, trolleys and step stools

All of these are easy additions to any kitchen design. Work bench add that little extra storage we all need and a trolley on wheels offers roll-anywhere convenience. A step-stool is a must-have for any kitchen, for reaching things up high, letting kids join the fun at the worktop, or using as extra seating by the table.

Having things in plain sight has its advantages

With open shelves, hooks, rails and racks you can create a personal combination that gives a good overview of your kitchen and makes everything easily accessible. Inspired by restaurant kitchens, we created KUNGSFORS series of wall-mounted shelves and accessories so you can feel like a professional and enjoy a smooth workflow.

Lighting and sound

A brighter kitchen life

Good lighting is an essential part of any kitchen. That's why we offer four integrated lighting series perfectly dimensioned to fit our kitchen cabinets. Having integrated lighting in your kitchen is a great way to show off your favourite dinnerware behind glass doors or in drawers. And, good lighting brings alive your cabinet doors, worktop and wall panels, too.

Get an even better kitchen life with the ability to dim, change from warm to cold light, turn off and turn on light wirelessly. All you need is TRÅDFRI remote

control. Or, use the TRÅDFRI gateway and IKEA Home smart app to control every beam of light with your smartphone. We call it IKEA Smart lighting.

Sound is a powerful mood booster, much in the same way as light. Both are crucial for creating the right atmosphere at home and both are deeply personal – each of us has our own unique preferences in terms of volume, brightness, type, and genre. Like light, sound is culturally and socially important; it brings people together.

Sound has the ability to change the atmosphere at home dramatically. So, turning a grey day into a great day is only a touch of a button away.

Drawer lighting simplifies finding what you need even during those midnight kitchen raids. Opening and closing the drawer turns the light on and off automatically.

Spotlights provide a focused light that is good for lighting smaller areas and behind glass doors.

Worktop lighting should give you a clean, clear view of all the work you're doing in the kitchen.

Cabinet lighting illuminates your favourite kitchen doors and creates cosy mood light in the entire kitchen.
