How To Download & Connect To APP

Scan the following QR code, download and install the IMIKI Life App.

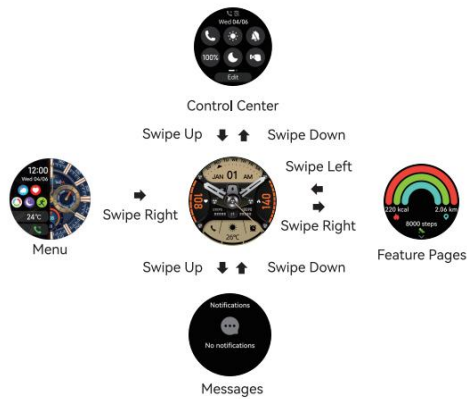

" Scan QR Code and Download "

Pairing

The MAC address on the "Setting"-"About" page could help you identify your device on the scanning list.

Use the Touch Screen

Smart Watch Features

	Phone: You can make and receive calls, view call records, and add contacts and emergency contacts simultaneously on the APP. When using the phone function, you need to keep the connection between the watch and the phone stable.		Heart rate: Measure the current heart rate value, and you can enable all-day heart rate monitoring on the APP. More detailed information analysis and data records can be viewed on the APP. (The values are for reference only and cannot be used as medical evidence)
	Activity status: Record the number of steps, distance, and calories for the day. More detailed information analysis and data records can be viewed in the APP.		Sleep: It can record the total sleep time of last night, as well as the duration of deep sleep, light sleep, and rapid eye movement, and supports sporadic naps. More detailed information analysis and data records can be viewed in the APP.
	GPS outdoor sports: Outdoor running, outdoor walking, outdoor cycling, outdoor mountaineering. (When doing outdoor sports, please wait for GPS satellite positioning in an open area. The GPS signal icon flashes to indicate positioning is in progress, and stops flashing to indicate successful positioning.)		Blood pressure: Measure the current blood pressure value, and enable all-day blood pressure monitoring on the APP. More detailed information analysis and data records can be viewed on the APP. (The values are for reference only and cannot be used as medical evidence)
	Sports: Outdoor running, outdoor walking, indoor walking, indoor running, outdoor cycling, indoor cycling, mountain climbing, elliptical machine, rowing machine, dance, free training, badminton and other 100+ sports modes.		Blood oxygen: Test the current blood oxygen value; you can enable all-day blood oxygen monitoring on the APP. More detailed information analysis and data records can be viewed on the APP. (The values are for reference only and cannot be used as medical evidence)
	Exercise record: Record the latest 40 exercise records.		Pressure: Measure the current pressure. You can enable all-day pressure monitoring on the APP. More detailed information analysis and data records can be viewed on the APP. (The values are for reference only and cannot be used as medical evidence)

Smart Watch Features

	Music control: After connecting to a mobile phone, the watch can control the music play/pause/previous song/next song on the mobile phone and adjust the volume.		Messages: Message reminders, synchronize notification push on your phone, and save 8 latest message reminders.
	Voice Assistant: Click on the voice assistant and say the function you want to wake up. (Note: The watch needs to be connected to the phone via BT to work.)		Stopwatch: supports 20 sets of time records.
	Weather: Displays the weather conditions for the current day and the next 6 days. (Weather information can only be obtained after connecting to the APP. If the connection is disconnected for a long time, the weather information will not be updated)		Alarm: You can add 5 sets of alarm reminders and set the reminder time. The alarm reminder will vibrate and light up the screen.
	Breathing training: You can set the breathing rhythm and time, and follow the training prompts to complete the breathing training.		Timer: You can set the timing time by yourself, such as 1 minute, 5 minutes, 10 minutes, etc.
	World Time: Supports adding 5 sets of different country and region time. You can add and delete them by yourself. Please go to the APP settings.		Calculator: Supports simple calculation functions and can perform basic calculations such as addition, subtraction, multiplication, and division.

Smart Watch Features

	Remote control photography: Open the photography control on the APP and click to remotely control photography.		Always on display: You can choose a digital clock or an analog clock to display when the watch screen is off. If this function is turned on, the battery life will be reduced.
	Flashlight: Turn on the flashlight to illuminate the environment, and then click the flashlight page to close it.		Password: Open the password lock, enter the password and confirm.
	Find phone: Click Find phone, and the phone will vibrate and ring to remind you.		Sports recognition: supports walking, running, outdoor cycling, elliptical machine, and rowing machine.
	Women's health: Set the menstrual period function on the APP, and the watch will display the corresponding menstrual period, fertile period, and ovulation period reminders.		Cover the screen: Cover the screen with your palm and the screen will go to sleep.
	Settings: Change watch face, language selection, screen off display, display and brightness, sound and vibration, theme, password, time and date, do not disturb mode, motion recognition, down key settings, motion recognition, down key settings, system menu, about.		Media sound: On/off: when playing music, browsing TikTok, watching videos, watching movies, the watch plays sound, but the phone does not play sound. (Mainly controls the third-party playback sound) Mute: Control the sound switch of incoming calls on the watch.

Other Functions

Sedentary reminder, do not disturb mode, low battery reminder, incoming call reminder, high heart rate reminder, low heart rate reminder, find watch, online watch face push, custom watch face push, 12/24 time system, unit setting, raise wrist to light up screen, goal achievement reminder.

Charging

01. Place the watch on the charging head so that the charging contacts on the back of the watch fit completely with the metal contacts on the charging head.
02. Connect the charging cable to a standard USB charger purchased from a regular channel, with an output voltage of 5V and an output current of 0.5A or above.

Note: If the watch cannot be turned on after being left for a long time, please wipe the charging contacts of the charging cable clean before using it again to avoid sweat or moisture residue.

Specifications

Model: IMIKI XPLORER Pro
Battery Capacity: 450mAh
Standby Time: 15 Days
Charging Voltage: 3.8V
Water & Dust Proof: 1 ATM
BT Version: BLE5.3 + BT3.0
Frequency Band: 2,402MHz - 2480MHz
Max. Signal Transmission: < /> 9dBm

Warranty

01. During normal use, if there are any quality problems caused by manufacturing, materials, design, etc., the motherboard will be free of charge for one year from the date of purchase, and the battery and charger will be free of charge for half a year.
02. No free warranty is provided for faults caused by the user's personal reasons, as follows:
 - A. Faults caused by unauthorized disassembly, modification of the watch, etc.
 - B. Faults caused by accidental drop during use.
 - C. All man-made damage or third-party negligence and misuse (such as: water ingress to the host, external force cracking, damage to scratches on peripheral components, etc.) are not covered by the warranty.
03. When requesting free warranty, please provide a warranty card with the purchase date and the stamp of the purchase place.
04. When users repair the product, please take the product to our company or our company's distribution point.
05. All functions of the product are based on the actual product.

Tips:

1. To ensure the waterproof performance of the product, please do not remove the screws of the back cover of the watch without authorization, and do not soak it in hot water, hot tea and other corrosive liquids.
2. This product contains lithium batteries. When recycling the product, please be sure to place it at the designated battery recycling point.

Disposal of electrical and electronic equipment

The crossed-out garbage can means that you are legally obliged to collect these devices separately from unsorted municipal waste. Disposal in the residual waste bin or yellow bin is prohibited. If the products contain batteries or accumulators that are not permanently installed, they must be removed before disposal and disposed of separately as batteries.

Possibilities of returning old appliances

Owners of old devices can hand them in within the framework of the options set up and available by public waste disposal authorities for returning or collecting old devices to ensure that the old devices are properly disposed of.

Data protection

We would like to point out to all end users of waste electrical and electronic equipment that they are responsible for deleting personal data on the old equipment to be disposed of.

We, IMIKI Co., Ltd. hereby declare that this device complies with the basic requirements and the other applicable provisions of the EU Declaration of Conformity according to the Radio Equipment Directive 2014/53/EU and the RoHS Directive 2011/65/EU. The full EU declaration of conformity can be found on the website:
<https://www.imikilife.com/declarations>

Manufacturer: IMIKI Co., Ltd
Address: 1401F, South Area, Jingji Yujing Times Building, Longgang District, Shenzhen, China

FCC Statement:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
