

40V Max Brushless 400mm Chainsaw UC026G

HEAVY DUTY BRUSHLESS

1.6kW
MAX OUTPUT POWER

Product Statement

The UC026G provides 1.6kW of Max output power and has comparable performance to 35cc 2 stroke petrol chainsaws.

The Brushless motor provides enough torque and chain speed to cut through large, hardwood timbers while the captive bar nuts and adjustable chain lubrication make maintenance a breeze, whilst the variable speed trigger and metal spike bumper provide added safety and control.

Product Overview

Product Specifications

SPECIFICATIONS	
Chain speed	25.5m/s
Max power output	1.6kW
Bar size	400mm
Standard chain	0.325" / 0.043"
Sound pressure level	101dB
Oil tank capacity	200mL
Skin weight	3.92kg
Voltage	40V Max

- **New Style Lock Off Trigger** – allows power to remain active for 5 minutes after handle is released.
- **Brushless Motor** – delivers equivalent power to 35cc 2 stroke petrol chainsaws.
- **400mm Bar Length** – large cutting capacity for versatile pruning tasks like felling or delimbing branches.
- **Captive Bar Nuts** – allows for easy maintenance of the bar and chain and access to adjust chain tension.
- **Adjustable Chain Lubrication** – provides optimum oil flow to effectively lubricate the chain and bar depending on the application.
- **Variable Speed Trigger** – variable speed trigger allows for optimum control of chain speed through the entire cut.
- **IPX4 Wet Guard** – protects components from water penetration increasing durability.

Advantages

Convenience

New style lock-off trigger allows power to remain on for 60 seconds after unit stops.

Lubrication

Adjustable chain & bar oil lubrication for optimum flow depending on the application.

Control

Metal spike bumper bites into material to provide optimum control while cutting.

Power

Brushless motor delivers performance equivalent to 35cc petrol chainsaws

Our Range

	UC026G	UC013G	UC003G
			
Chain speed	25.5m/s	25.5m/s	24m/s
