OFF

Charging The Battery

Plug in the provided the USB cable to the Micro USB port of the mouse, connect the other end of the cable into a USB port of a PC or a USB charger*. LED light up in blue when it's charging and goes off upon the device fully charged.

The device works when charging, but the wired mode is for emergency use only, please disconnect charger upon fully charged to protect the rechargeable battery.

Changing DPI

The default DPI for the mouse is 1000, which is suitable for most office work and gaming needs.
Click the 'Sensitivity Switch' repeatedly to change DPI mode.
