DCE154 20V MAX* XR® 1-1/4 IN. COPPER TUBING CUTTER

Complete a variety of mechanical and plumbing applications with the 20V MAX* XR® 1-1/4 in. Copper Tubing Cutter (DCE154). Designed to deliver a best-in-class cut capacity range**, this tool helps maximize productivity with up to 550 cuts per charge††. Cut both plumbing and HVACR copper tubing sizes with the auto-size adjust cut mechanism that allows the tool to be used with 1/4 in. – 1-1/4 in. copper tubing or pipe without swapping parts including 3/8 in. outer diameter tubing for HVACR applications. This product features an innovative pivoting head that offers access to a wide range of cutting angles and a variable speed trigger for advanced user control. As a part of our best performing line of 20V MAX* power tools and batteries††, the durable 20V MAX* XR® 1-1/4 in. Copper Tubing Cutter (DCE154) features an innovative pivoting head that offers access to a wide range of cutting angles and a variable speed trigger for advanced user control.
