

INCLUDES:

- 1 (One) Wireless Keyboard
- 1 (One) USB receiver
- 1 (One) User Manual

FEATURES

- Wireless connection: automatic linking, plug & play via USB receiver.
- Responsive buttons for ultimate productivity and efficiency.
- Ergonomic design for maximum performance and comfort.
- Customize your working angle with the flip-out stand.

OPERATING INSTRUCTIONS

1. Power ON/OFF:

The keyboard is powered by 2 (Two) AAA 1.5V Alkaline Batteries. The ON/OFF switch is located on the top side panel of the keyboard.

USB RECEIVER

- The USB receiver can be found (and stored) in a slot on the bottom of the keyboard, under the battery compartment cover.
- Flip the keyboard over. Open the battery compartment door. You will see a small rectangular object embedded in a slot in the bottom of the keyboard, imprinted with the FCC ID number, this is the USB receiver unit, and it can be stored in this slot when not in use so that it doesn't get lost or damaged. The keypad will not work without the USB Receiver.
- Remove it carefully by hooking a fingernail into the groove along the metal side surface, and lift it up slowly to free it, being very careful not to damage or lose it.

HOW TO USE

- Place 2 (Two) X AAA 1.5V Alkaline Battery (not Included) into the battery compartment on the back of the keyboard.
- Insert the USB receiver into one of your computer's USB ports.
- Turn the keyboard ON (the switch is located on the top side panel).
- Your computer should recognize the keyboard instantly. Be sure to check your computer's settings if it is not detected.
- Remove the USB receiver from your computer's USB port when the unit is not in use.

NOTE: If your computer lost connection to keyboard, unplug the USB receiver first, press and hold the ESC+Q buttons for about 3 seconds, the indicator light will flash, reinsert the USB receiver into the USB port of the computer (the keyboard will automatically connect to the receiver, and the keyboard can be used). This method can also be used if you are using new USB receiver that doesn't come with this keyboard.

INSTALL THE BATTERIES IN THE KEYBOARD:

Step1: Remove the battery compartment cover on the bottom of the keyboard by squeezing the cover in from the tab to release it.

Step2: Insert batteries in the battery compartment.

Step3: Replace the cover.

Sleep:

After 10 minutes of no button action, keyboard will enter sleep mode; If a button is pressed while the keyboard is in sleep mode, it will automatically return to its original state.

CAUTION

- This is not a toy. Please keep away from small children.
- Please keep the unit away from water and heat.
- This unit is for indoor use only.

Interface compatibility: USB 2.0/3.0

Working range: up to 33 feet (10 meters)

Sleep mode: after 10 minute of inactivity, keyboard will go into sleep mode

Sleep wake-up: press any button to wake up

Operation Voltage: 3V DC±5%

Operation Current: ≤100ma

Operating Temperature: 0~45C°

Storage Temp: -20~+60C°

Forced Pairing: ESC+Q

Operating Humidity: 20~90%

Storage Humidity: ≤93% (40C°)

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications not expressly approved could void the user's authority to operate the equipment.

FCC Radiation Exposure Statement:

For Wavy Wireless Keyboard-ASST:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

For Wavy Wireless Keyboard-dongle:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment

FCC ID: 2AHN6-KBWS113 FCC ID: 2AHN6-DE9
