

60cm Series 9 Contemporary Warming Drawer

Series 9 | Contemporary

Keep plates warm until ready to serve; rapid proof or slow cook to perfection. Pair with an oven for matching Contemporary styling.

- A companion product, designed to match with other Contemporary style Fisher & Paykel products
- Space to keep six standard-sized place settings evenly warm
- Easy to clean smooth-glass base
- Six versatile tailored programmes for warming, proofing, dehydrating and slow cooking

DIMENSIONS

Height	140 mm
Width	596 mm
Depth	567 mm

FEATURES & BENEFITS

- Complementary Design**
Our Warming Drawer comes in either a stylish black reflective glass or brushed stainless steel, for seamless pairing with our matching ovens.
- Multi-Function Flexibility**
Choose from six tailored functions including Rapid Proof, Dehydrate and Slow Cook.
- Easy To Clean**

Cleaning and care of the Warming Drawer is simple. After each use, just wipe out the smooth glass interior with a damp cloth.

Easy To Use
Handle-free, push-to-open with capacitive touch controls, our Warming Drawer gives you the freedom to keep plates or cups warm while you continue to cook.

Precise Control
With fast and even heating, our warming drawer is great for keeping food warm and low temperature cooking, as well as resting after a traditional roast in the oven and proofing dough.

Safe And Sound
With Automatic switch-off and Delayed start functionality, our warming drawers help keep dishes warm until it is time to serve the main meal.

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
