

# Monitor Desk Mount Instruction Manual

V2.0

Model: EGDS2

Thank you for choosing this Ergear product! At Ergear we strive to provide you with the best quality products and services in the industry. Should you have any issues, please don't hesitate to contact at support@ergear.com (US/CA/DE/UK/FR/IT/ES/AU)

#### IMPORTANT SAFETY INFORMATION

Please carefully read all instructions before attempting installation. If you do not understand the instructions or have any concerns or questions, please contact our customer service at support@ergear.com.

CAUTION: Avoid potential personal injuries and property damage!

- Do not use this product for any purpose that is not explicitly specified in this manual. Do not exceed weight capacity. We are not liable for damage or injury caused by improper mounting, incorrect assembly or inappropriate use.
- This product contains a high pressure gas spring, fire and percussion prohibited. Also it is strictly prohibited to dismantle without professionals. Please return to the manufacturer or hand over to professional agencies if the product is abandoned.
- The desk must be capable of supporting three times the weight of the total load (the mount, the monitor and all accessories weight). Don't use the product on particle board.

#### Weight Restrictions

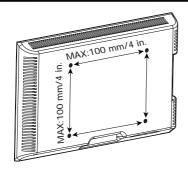

Your monitor (including accessories) CANNOT EXCEED 6.6-26.4lbs (3-12 kg)

## **WARNING**

DO NOT exceed the maximum weight indicated. This mounting system is intended for use only with the maximum weights indicated. Use with products heavier than the maximum weights indicated may result in failure of the mount and its accessories, causing possible damage and or injury.

If your monitor weighs more, this mount is NOT compatible.

#### Check the VESA Pattern of Your Monitor before You Begin the Installation

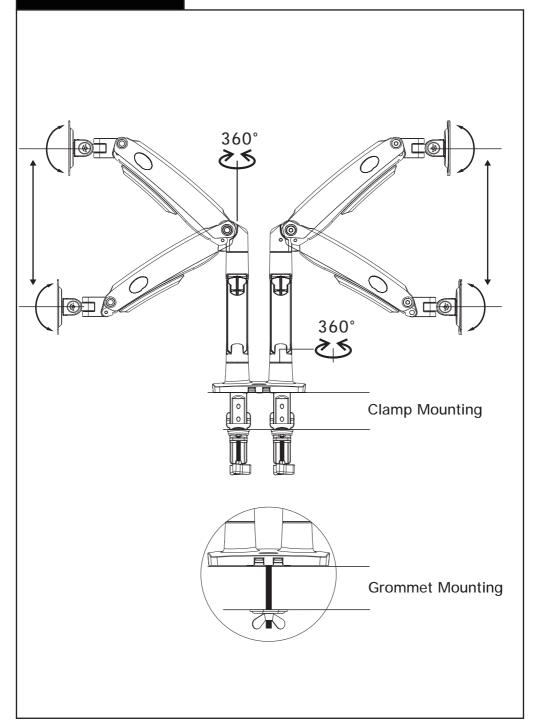

75 mm ≈ 3 in. 100 mm ≈ 4 in.

Minimum VESA pattern: 75mm/3 in.(W)x75mm/3 in.(H)

If your Monitor VESA is greater than 100x100 mm/4x4 in. or less than VESA 75x75mm/3x3in., this mount is NOT compatible.

If this desk mount is NOT compatible, please contact customer service at support@ergear.com to find a compatible product.

# TENSION ADJUSTMENT SHOULD BE DONE ONLY AFTER MOUNT INSTALLATION

Do not adjust tension without monitor.

- 1. Ensure monitor has been attached to the mount.
- 2. Read your monitor box or manual to find out monitor net weight.
- 3. Ensure the net weight of monitor (including accessories) is between 6.6~26.4 lbs (3-12 kg).

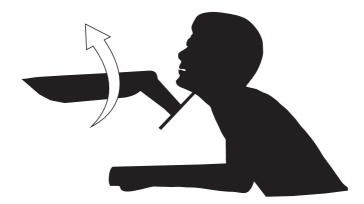

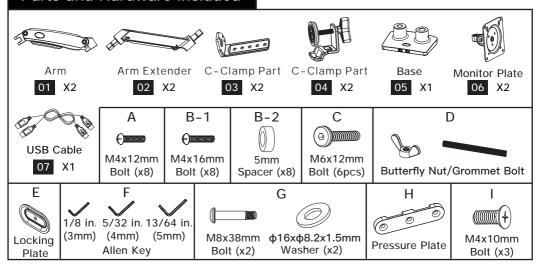

Clockwise to reduce tension(carry less weight)

Counter-clockwise to increase tension(carry more weight)

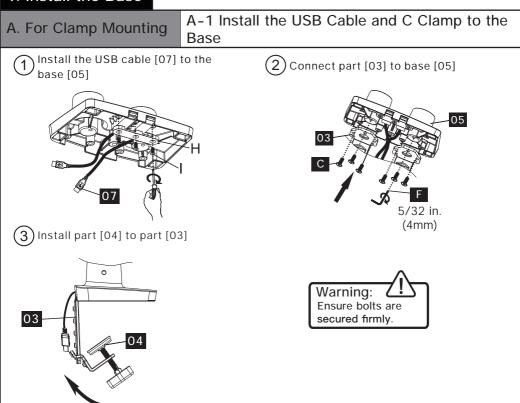

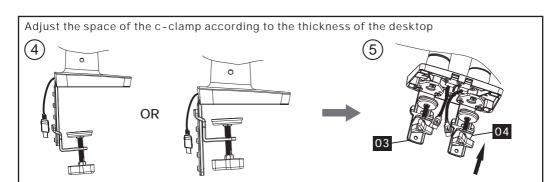

#### Parts and Hardware Included

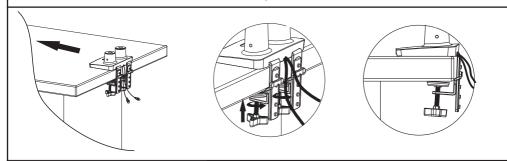

#### 1. Install the Base

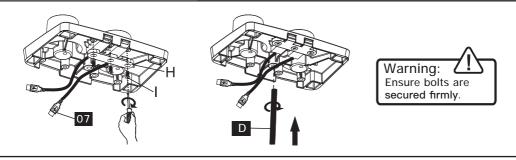

A-2 Secure the Base to the Desktop

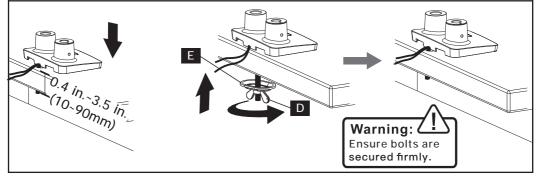

#### **B.** For Grommet Mounting

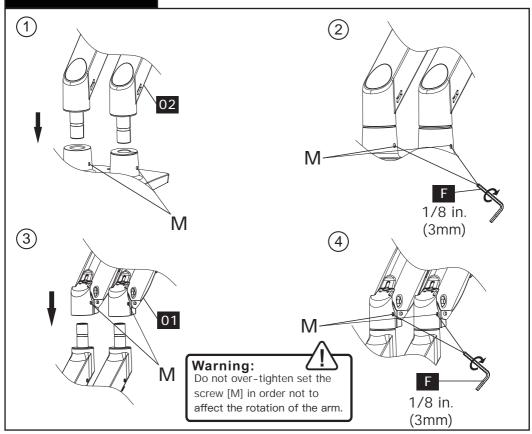

B-1 Install the USB Cable and Grommet Bolt to the Base

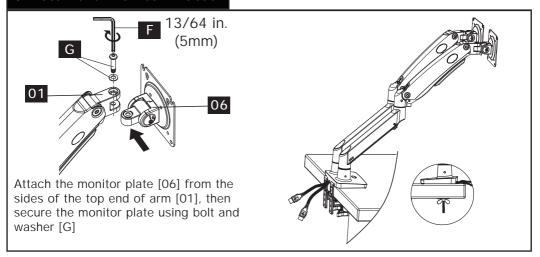

B-2 Secure the Base to Desktop Using Locking Plate and Butterfly Nut

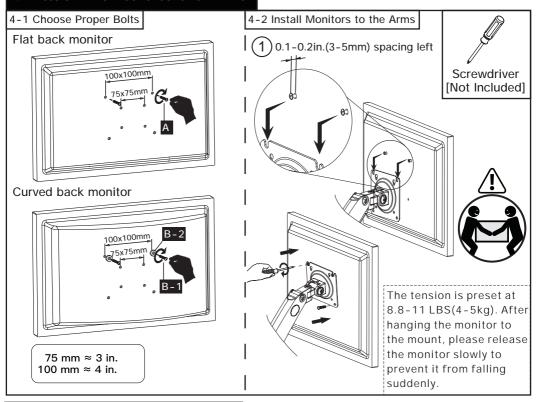

#### 2. Install the Arms

#### 3.Install the Monitor Plates

#### 4. Attach Monitors to the Arms

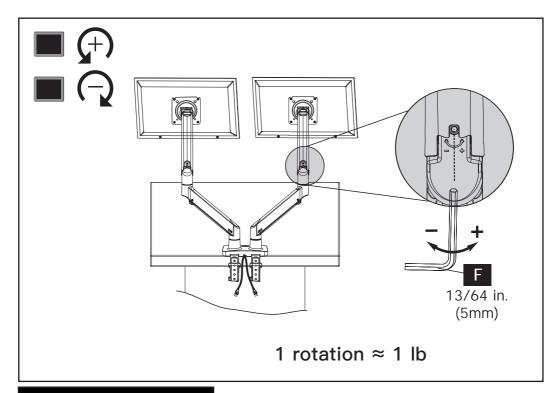

### 5. Adjust Gas Spring Tension

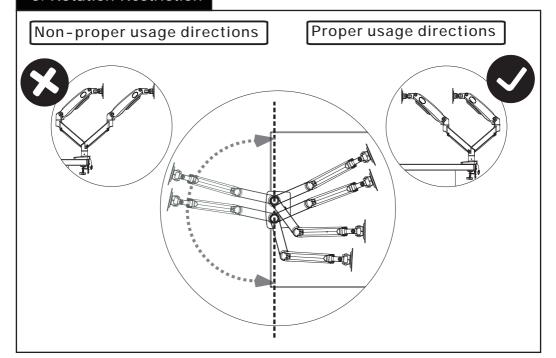

Be sure to keep the arm in horizontal position during adjustment. Or else, it would be difficult to adjust the mount or damage the mount.

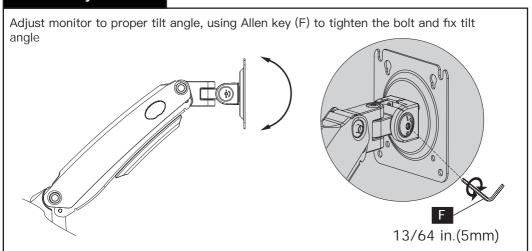

- 1. If the monitor can stay at the desired height by itself, no adjustment needed.
- 2. If the monitor rises up, press the arm to keep it in horizontal position and then use the 13/64 in. (5mm) Alley key (F) to turn the bolts clockwise(" " direction) to reduce tension of the arm only until the monitor can stay at the desired height by itself.
- 3. If the monitor falls down, lift the arm to keep it in horizontal position and then use the 13/64 in. (5mm) Alley key (F) to turn the bolts counter-clockwise("+" direction) to increase tension of the arm only until the monitor can stay at the desired height by itself.

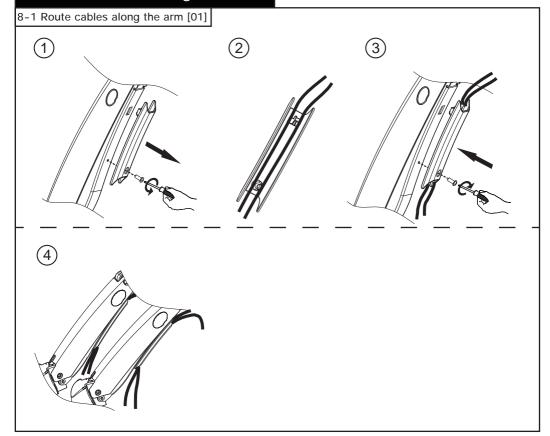

### 6. Rotation Restriction

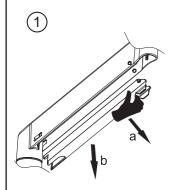

### 7. Tilt Adjustment

#### 8. Route Cables along the Arms

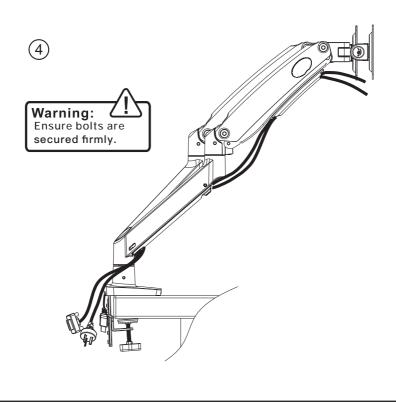

#### 8-2 Route cables along the arm extender [02]

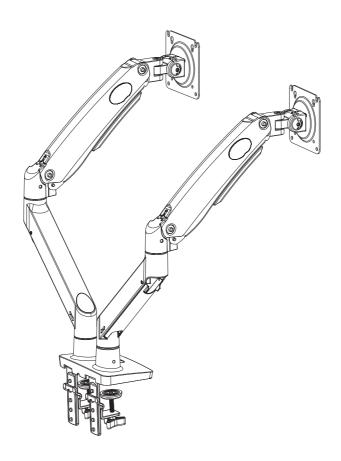

Pinch the both sides of the top end of the cover to make it attach to the arm
