

# Product Safety Recall

## Do you own this product?

### BlendJet2 portable blender

Portable blender with a rechargeable lithium-ion battery, sold in various colours.

Products with serial numbers in the following range may be affected: 5201000000 to 5542999999.

The serial number is printed on the bottom of the base.

Model: BlendJet2

Dates sold: 1 October 2020 – 1 November 2023

**Recall updated 14 August 2025: BlendJet Inc has gone out of business in the United States and is no longer operating in all international markets, including Australia.**

**Why the product is recalled:** The metal blades may break while the blender is in use. Separately, the blender may overheat and catch fire when charging or while in use.

**Hazard:** There is a risk of serious injury from choking or lacerations if broken blade pieces become mixed with food or drinks and consumed. Injuries have occurred.

There is a risk of serious burn injuries or property damage if the blender overheats or short circuits and catches fire. Fires with associated burn injuries and property damage have occurred.

1. Stop using the blender immediately. If you purchased the blender from Blendjet directly, you should dispose of it. Do not donate or resell the blender.
2. Blendjet is no longer operating and is unable to provide consumers with a remedy.

**Important message from the ACCC to consumers:** If you purchased the blender from another retailer, you may have rights to a remedy from that retailer in accordance with the [consumer guarantees](#), which may, in certain circumstances, entitle you to a refund or replacement product that is free of defects.

Purchased from: BlendJet (no longer operating)

Various small appliance retailers
