## Tips: To use this product, the host USB-C port from your device must support DisplayPort Alt Mode(Thunderbolt)and Power Delivery. For Windows Users:

Once setup is complete, Windows will either 'Duplicate' your internal laptop display to a monitor connected to the dock, or 'Extend' your desktop to add more space for applications and icons. This can be changed by right-clicking on an empty space of your desktop and selecting Display Settings from the menu that appears.

## For Mac Users:

To adjust your displays, go to System Preference and click on Displays, Under the Arrangement tab, you can adjust your display arrangement and choose your desired location for your menu bar.

The OKX Docking Station relies on new functionality of the thunderbolt

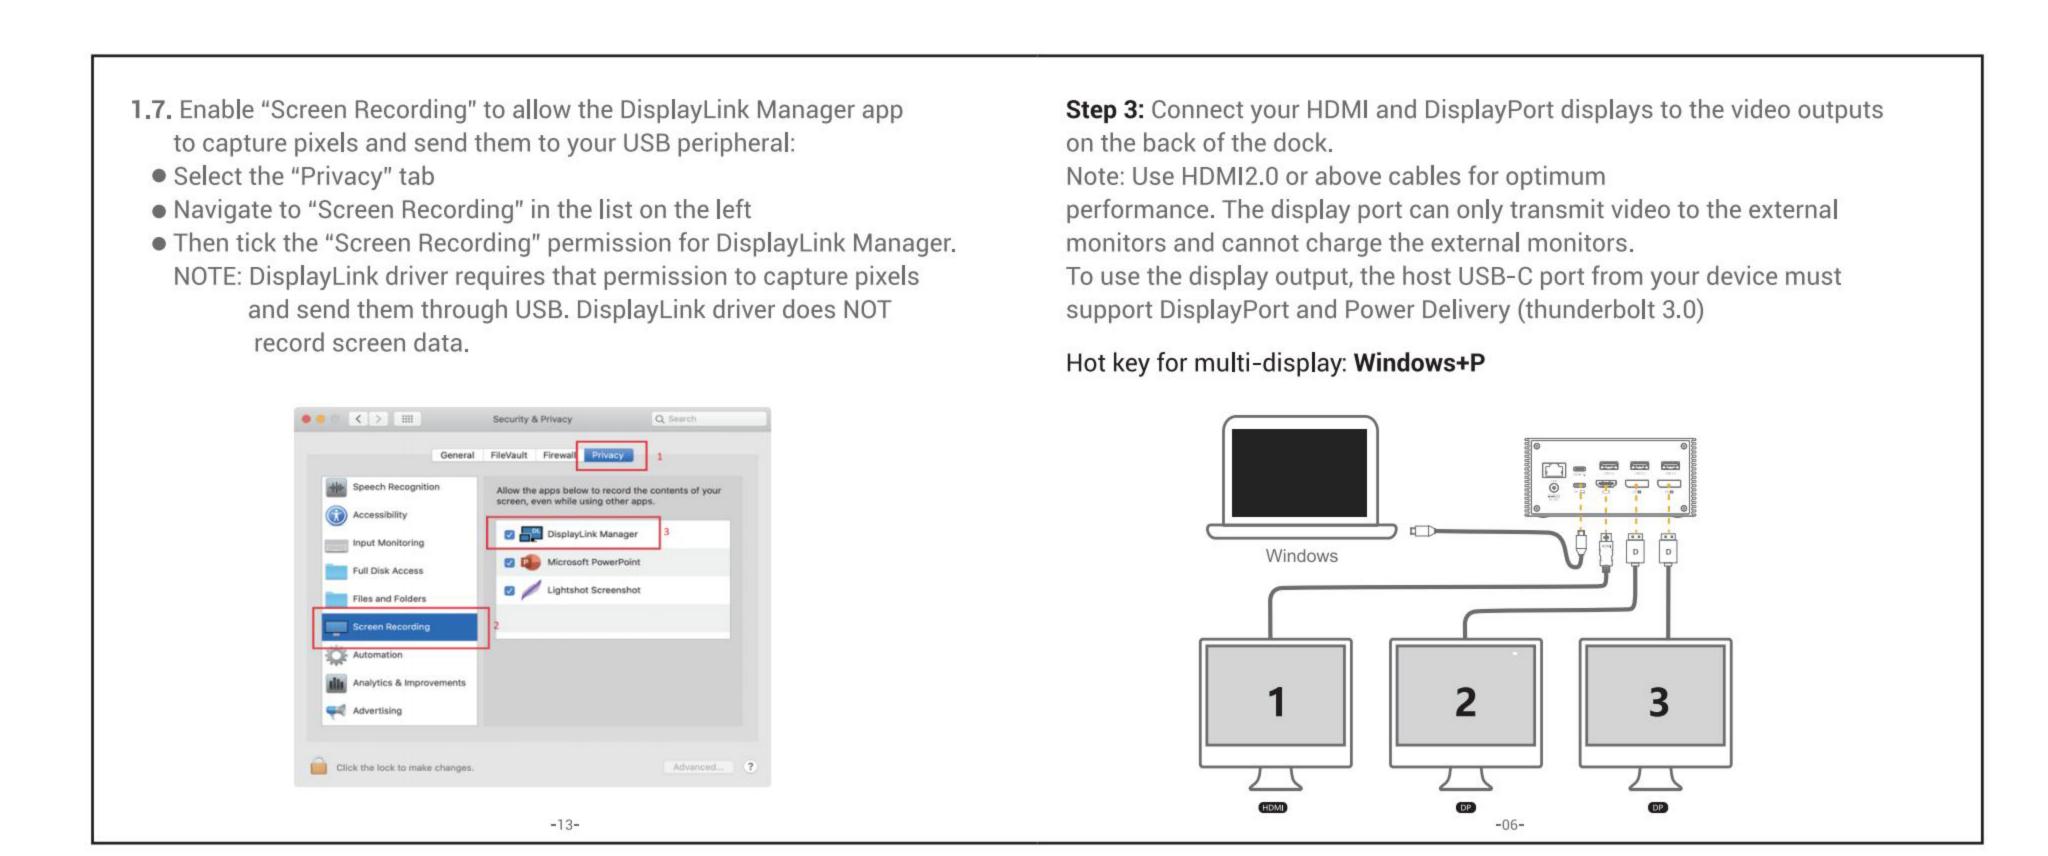

USB 3.1 Gen2 Type-C and as such is incompatible with USB 3.0/2.0 Type-A systems. Thunderbolt 3 USB 3.1 Gen2 Type-C generally support Alt Mode output and Display Link functionality, but support for Power Delivery/charging

## Compatible Devices: (Not a full list)

on these ports is system-specific.

MacBook (2015/2016/ 2017/2018/2019/2020) MacBook Pro (2016 / 2017/2018/2019/2020) iMac/iMac Pro (21.5 in & 27 in) Lenovo P1 Extreme Gen2 Lenovo T580 **HP OMEN HP Zbook**
