

INSTALLATION INSTRUCTION

For Ceiling plate

ITEM# WL-SZW007LR2

CAUTION:

Thank you for choosing our Crow Lamp. Please read this user guide carefully before use and keep it for future reference.

If you encounter any issues while using it, please send an email to me, and we will do our best to help you resolve the problem.

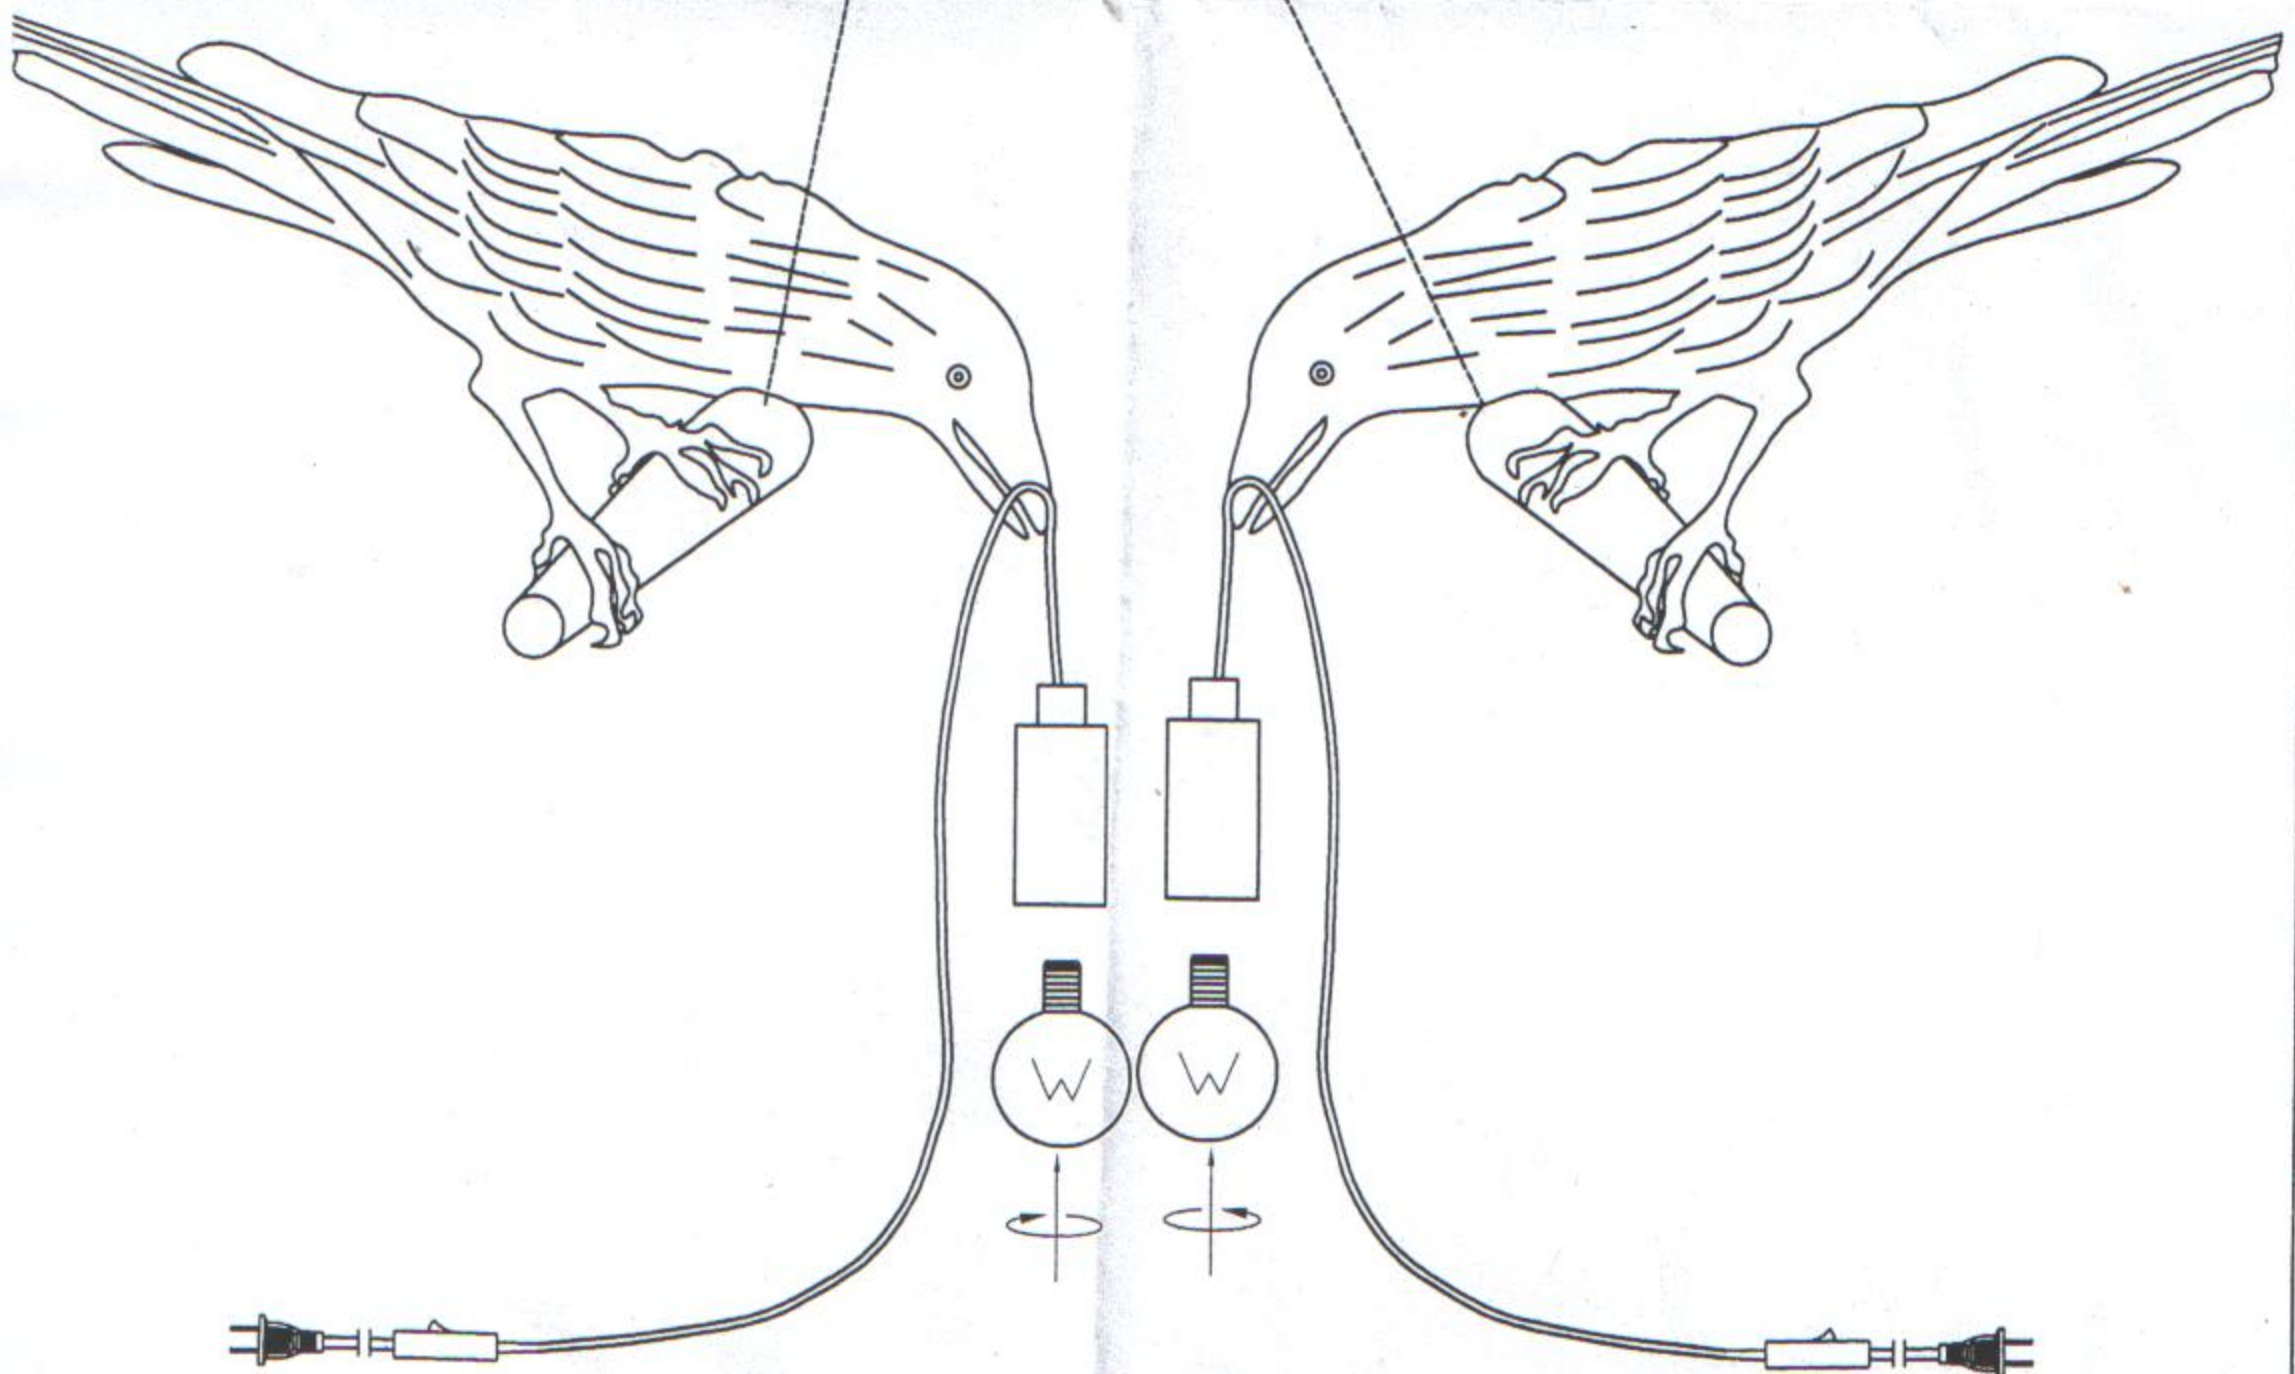

Insert the threaded rod into the product and tighten it. Step 1: Find an electric drill, and drill a 10MM hole with the same depth as the plastic or metal pipe.

2: Insert the threaded rod into the hole and tighten it

3: Assemble the light bulb and secure the string attached to the bird; once everything is ready, you can press the button, and the light bulb will turn on.

Wake up.

Insert the plastic gecko into the wall, then lock the screw rod behind the lamp post, and finally lock the screw rod into the plastic gecko to secure it!

ACCORDING TO DRAWING.
