Instructions for Use

1. Before powering on, the device should be inflated, either by mouth or using an electric pump (sold separately).

2. For the first use, please perform a full charge and discharge cycle.

3. The light connects to the stand via magnetic attachment, while the stand features a 1/4" threaded hole for mounting onto a light stand.

4. Suspended mounting.

Instructions for Use

12 Special Scenes

F01	 Lightning	F02	 Paparazzi	F03	 Defective Bulb
F04	 Explosion	F05	 Welding	F06	 CCT Flicker
F07	 CCT Pulse	F08	 Candlelight	F09	 CCT Loop
F10	 Brightness Loop	F11	 Screen	F12	 Fireworks

Battery Alerts

1. Do not disassemble, modify, or repair the built-in battery. Any unauthorized modification may result in battery leakage, overheating, fire, or explosion.
2. Do not use a non-original or uncertified charger to charge the product to prevent overcharging, short circuits, or other hazards.
3. If abnormal charging speed or unusual blinking of the indicator are observed, please stop using the product immediately and contact our after-sales service for assistance.
4. Do not place the product near flammable or explosive materials.

Notes

1. Before turning on the light, please inflate it to prevent the TPU exterior from coming into contact with and being damaged by the heat from the LEDs.
2. The tube light contains an inflatable airbag. Do not let it touch sharp objects, or expose it to corrosive fluids or gases. Avoid using it in high-temperature, high-humidity environments, and do not squeeze or drop it from high places to prevent damage.

Specifications

Dimensions (Not Inflated)	About 0.9x0.12m
Materials	TPU, Silicone
Max Power	21W
Power Input	Type C 5V/3A
Battery Capacity	7.4V 2500mah 18.5Wh
LED Quantity	320
CRI	95
Tube Light Weight	0.26kg
Color Temperature	2700-6500K
Max Illumination	1300LUX@0.5
Brightness Range	0%-100%
Charging Time	120min
Discharge Time	55min at 100% Brightness
