NOTE

BEFORE OPERATING THIS PRODUCT, READ, UNDERSTAND, AND FOLLOW THESE INSTRUCTIONS. BE SURE TO SAVE THIS BOOKLIST FOR FUTURE REFERENCE.

BASIC SAFETY PRECAUTIONS

When using electrical appliance, basic safety precautions should always be followed, including the following:

Read all instructions.

Close supervision is necessary when any appliance is used by or near children.

Unplug from the outlet when not in use and before cleaning. Allow to cool before putting on or taking off parts.

The use of accessory attachments is not recommended by the appliance manufacturer. This may cause injuries.

Extreme caution must be used when you move an appliance containing hot oil or other hot liquids.

Avoid contacting moving parts.

For household use only.

Remove the plug from the outlet when the appliance is not in use, before putting on or taking off parts, and before cleaning. Allow to cool before handling.

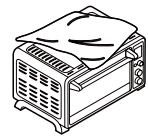
Extreme caution should be exercised when you use containers constructed of materials other than metal or glass.

Caution-To ensure continued protection against risk of electric shock, connect to properly

grounded outlets only.
(If the appliance is of the grounded type)

The outside of the oven, including the door, is hot during and after use.

A fire may occur if the toaster-oven is covered or touching flammable material, including curtains, draperies, walls, etc., when in operation. Do not store any flammable materials on top of the appliance when in operation.



Always attach plug to appliance first, then plug cord into the wall outlet. To disconnect, turn any control to " ⊗ ", then remove plug from wall outlet.

Always use heat-resistant gloves, pads, or oven mitts when handling hot materials, and when placing items in or removing items from the oven, including trays, racks, accessories, or containers.

To protect against electrical shock, do not immerse the cord, plugs, or (state specific part or parts in question) in water or other liquid.

Do not clean with metal scouring pads. Pieces can break off the pad and touch electrical parts, creating parts, creating a risk of electric shock.

Oversize foods or metal utensils must not be

inserted in a toaster-oven as they may create a fire or risk of electric shock.

Do not store any materials, other than manufacturers recommended accessories, in this oven when not in use.

Do not operate any appliance with a damaged cord or plug or after the appliance malfunctions or has been damaged in any manner. Return appliance to the nearest authorized service facility for examination, repair, or adjustment.

Do not touch hot surfaces. Use handles or knobs.

Do not let cord hang over edge of table or counter, or touch hot surfaces.

Do not use the appliance outdoors.

Do not place on or near a hot gas or electric burner, or in a heated oven.

Do not place any of the following materials in the oven: (that is, paper, cardboard, plastic, and the like).

Do not cover crumb tray or any part of the oven with a metal foil.
This will cause over-heating of the oven.

Do not use the appliance for other intended use.

During operation, press " ⊗ " can stop cooking.

Use extreme caution when removing tray or disposing of hot grease.

CAUTION	Do not insert your fingers into any gaps or holes. This may cause injuries.

SAVE THESE INSTRUCTIONS

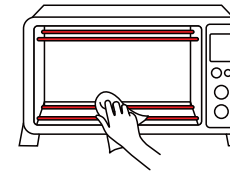
SHORT CORD INSTRUCTION (DETACHABLE POWER-SUPPLY CORD)

1. A short power-supply cord (or detachable power-supply cord) should be used to reduce the risk resulting from becoming entangled in or tripping over a longer cord.
2. Longer detachable power-supply cords or extension cords are available and may be used if care is exercised in their use.
3. If a longer detachable power-supply cord or extension cord is used:
   (1).The marked electrical rating of the cord set or extension cord should be at least as great as the electrical rating of the appliance.
   (2).The cord should be arranged so that it will not drape over the countertop or tabletop where it can be pulled on by children or tripped over unintentionally.
   (3).If the appliance is of the grounded type, the extension cord should be a grounding-type 3-wire cord.

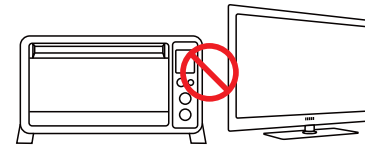
BEFORE FIRST USE

1. Remove all accessories and shipping materials packed inside the Oven.

2. Wash the Rack and Grill Tray in warm soapy water. Wipe the inside of the Oven with a damp cloth or sponge. Blot dry with paper towels to make sure that the unit is dry before using.



3. Place Oven on a flat counter or other stable surface.
   DO NOT OPERATE ON THE SAME CIRCUIT WITH ANOTHER APPLIANCE.



4. Make sure that the crumb tray is properly installed before using.

For the first time only, set the temperature Knob to MAX, the function setting on timer to 15 minutes. This will burn off any oils that are still on the oven.

CAUTION	The oven may smoke during this process. This is normal for a new oven and will not last more than 10-15 min.
