

LATITUDE ANTI-LOST TRACKER KEYRING

INSTRUCTION MANUAL

WTV-LA25

READ ALL INSTRUCTIONS CAREFULLY BEFORE USE.

WHAT'S INCLUDED:

- 1x Latitude Anti-Lost Tracker
- 1x Metal Ring
- 1x Charging Cable

SAFETY PRECAUTIONS

- Only use the device according to the instructions in this manual. Never use the device for anything other than its intended purpose.
- Handle the device with care. It contains sensitive electronic components, including batteries, and can be damaged, impair functionality, or cause injury if dropped, burned, punctured, crushed, disassembled, or if exposed to excessive heat or liquid or to environments having high concentrations of industrial chemicals.
- Do not use the device if it has been damaged in any way.
- Do not handle the device or button cell with wet hands.
- Always use the specified power source and voltage.
- This device contains small parts and is not suitable for children.
- If this device is damaged, it **MUST** be serviced or replaced by the manufacturer or its service agent before using again.
- When not in use, the device should be stored in a dry, cool location, away from sources of water or heat.
- Dispose of used battery according to your local environmental laws and guidelines.
- The device contains components and radios that emit electromagnetic fields. The device also contains magnets. These electromagnetic fields and magnets may interfere with pacemakers, defibrillators, or other medical devices. Maintain a safe distance of separation between your medical device and the device. Consult your physician and medical device manufacturer for information specific to your medical device.
- Stop using the device if you suspect it is interfering with your pacemakers, defibrillators, or other medical devices.

PRODUCT DIAGRAMS

INSTRUCTIONS

Latitude Anti-Lost Tracker is a super easy way to keep track of your stuff. Attach one to your keys, slip another in your backpack. And just like that, they are one your radar in the Find My app, where you can also track down your Apple devices and keep up with friends and family.

CHARGING THE TRACKER

- Plug the small connector of the included charging cable into the USB-C port on the tracker. Plug the other end of the cable into a USB power source, such as the USB port on a computer or into a certified USB adapter (not included), and plug into a wall socket.
- The LED indicator will **illuminate GREEN** while the tracker is in charging and turn off when fully charged.

PAIR & CONNECT WITH A NEW DEVICE

- Turn on Bluetooth of your iPhone or iPad and make sure the iPhone or iPad is connected to internet.
- Hold the tracker near your iPhone or iPad.
- Press and hold the **[Multi-Function]** button on the bottom of the tracker for 2 seconds to power on.

- You will hear a single beep indicating the tracker is in pairing mode.
- Open the **Find My** app on your iPhone or iPad.

- In the **Find My** app:
 - Navigate to “Items” tab and tap “+” button to add a new item.
 - Select “Add Other Item” to start searching items.
 - When you see “R5029” popping out, tap “Continue”.
 - Then you can follow the onscreen steps to finish setting up the tracker.
- Press and hold the **[Multi-Function]** button on the bottom of the tracker for 6 seconds to power off. You will hear a single beep, followed by two consecutive beeps and then three consecutive beeps, indicating the tracker is turned off.

HOW TO USE

Locate the Tracker

- Open the **Find My** app and navigate to the “Items” tab.
- Tap on your item from the list.
- If the tracker is nearby, tap “Play Sound” to make your tracker beep and follow the sound to find the tracker.
- *You can also use voice assistant to start the search.*
- If the tracker is not nearby, the last know location will appear on the map. Tap “Directions” to navigate to the last known location.

Notification:

- Open the **Find My** app and navigate to the “Items” tab.
- Tap on your item from the list.
- Scroll down to find “Notifications”.
- Turn on or turn off “Notify When Left Behind”.

RESET THE TRACKER

- To remove the tracker from your iPhone or iPad, open the **Find My** app, go to “Items”, locate the tracker, and scroll down to select “Remove item”.
- Then you can follow the onscreen steps to finish removing the tracker.
- If you have trouble connecting or pairing the tracker, press and hold the **[Multi-Function]** button on the bottom of the tracker for 11 seconds. You will hear a single beep, followed by two consecutive beeps, three consecutive beeps and a long beep, indicating the tracker is reset successfully.
- Follow the instructions under “**PAIR & CONNECT WITH A NEW DEVICE**” to pair with the tracker again.

FCC Warning Statement

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirement.
The device can be used in portable exposure condition without restriction.
