ENTERPRISE-GRADE EXPERIENCE IN EVERY MEETING

RIGHTSENSE TECHNOLOGIES

Logitech Solutions for Microsoft Teams Rooms include Logitech RightSense™, a suite of proactive technologies that automate and enhance the meeting experience.

RIGHTSIGHT™
Automatic camera control

RIGHTLIGHT™
Light and color optimization

RIGHTSOUND™
Adaptive audio adjustments

TAP AND TAP IP

With one-touch join, wired and wireless content-sharing, and center of room control, Logitech Tap and Tap IP make it super easy and fast to join a Teams meeting. Tap comes with a Cat5e kit and Tap IP is an IP-based controller better suited for certain room systems.

ROOMMATE

A Microsoft Teams Rooms on Android appliance which replaces the computer and works with Logitech conference camera systems like MeetUp and Rally.

MINI PCs

Rally Bar Mini and Rally Bar all-in-one video bars have built-in computers to run Teams Rooms on Android, without the need for a separate computer. For IT teams that prefer Windows-based room solutions, pre-provisioned mini PCs can be added to the video bar solutions.

BRIO CONTENT CAMERA KIT

Using Brio, remote attendees can clearly see real-time whiteboard brainstorming in Teams. The Logitech Brio Content Camera kit includes an adjustable ceiling mount to capture the whiteboard from an optimal distance and angle, and a USB extender to simplify cabling.

SCRIBE WHITEBOARD CAMERA

Purpose-built Logitech Scribe mounts directly above a whiteboard to capture content for sharing into a Teams meeting. Scribe features a custom lens and built-in AI for optimal clarity and low-latency performance so remote attendees can fully participate in real-time whiteboard brainstorming without interference.

JUMPSTART FOR TEAMS ROOMS

For 90 days after the purchase of a Logitech Solution for Microsoft Teams Rooms, you have access to support resources to assist with system, software, and security configuration to fully enable your Teams meeting room.

PERSONAL COLLABORATION SPACES

Making a video call in a personal workspace requires avoiding distractions and staying in control of what viewers can see and hear. Logitech Personal Collaboration tools can turn any desktop, whether remote or in an open office, into an instant collaboration space that works seamlessly with Teams. RightLight™ technology optimizes webcam settings for more natural light and color.
